Do you wish to speak to your submission at a public hearing?

No

Topic 1: Are we focusing on the right things in the plan?

Do you agree that these focus areas capture Otago's public transport priorities?

Yes

Tell us more:

Sustainable, attractive transport to keep people out of cars.

Topic 2: Should we support community transport services in smaller towns and rural areas?

Our proposal: we are considering the establishment of a subsidised community transport programme providing support for transport services in Otago's smaller towns and rural areas.

What do you think about this proposal?

Do you agree with ORC having a role in supporting community transport services?

Yes

Topic 3: Should we increase our passenger fares?

Our proposal: we are considering increasing the base fare for adult Bee Card passengers from \$2 to \$2.50. This would effectively increase bus fares for all passengers using Bee Cards by 25%.

What do you think about this proposal?

Should Council increase the adult Bee Card fare?

Yes

Tell us more:

The cheaper the better to encourage usage, but \$2.50 is still attractive compared to parking and driving.

Topic 4: Should we charge more for longer trips?

Our proposal: we are considering introducing a zone fare system to our bus networks in Dunedin and Queenstown. Under this system, passengers travelling further distances across multiple zones will pay a higher fare than those travelling short distances within one zone.

What do you think about this proposal?

Tell us more:

Tricky one, because I'm more tempted to take my car for longer trips and more so if the price went up 😊

Topic 5: Should we keep our free fares for children (5-12 years)?

Our proposal:

- A. Retain free fares (100% discount) for children (5-12 years), **AND**
- B. Standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks. For example, if the adult fare is \$2, youth pay \$1.20, or if the adult fare is \$2.50, youth pay \$1.50.

What do you think about this proposal?

Should Council retain free fares (100% discount) for children (5-12 years)?

Yes

Tell us more:

Children don't have an income or choice. Safe, affordable bus journeys help them develop social skills they don't acquire if they are taxied everywhere by parents.

Should Council standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks?

Yes

Any other comments?

Let us know if you have any other comments or ideas on the topics discussed in the Draft Regional Public Transport Plan.

I would love to see the No 18 Peninsula route run every 20 minutes during peak hours as the school buses are unsafe, particularly for vulnerable passengers.
