The specific provisions of the proposal that my submission relates to are:	I support or oppose the specific provisions or wish to have them amended.	The reasons for my views are:	I seek the following decision from the local authority:
Policy LF-FW-P13	Oppose	The Glenorchy Community is resilient and has a high tolerability for natural hazard risk. The Glenorchy Community expects both ORC and QLDC to be doing what it can to protect the existing development rights and current and future generations of Glenorchy.	Delete this policy or amend it to allow modification of braided river character if its required to protect existing communities from natural hazard risk. Any alternative or consequential relief to address the above.

The Glenorchy Community expects both ORC and QLDC to be doing what it can to protect the existing development rights and current and future generations of Glenorchy.</p>	<p>Delete these provisions or amend them to ensure that ORC or QLDC cannot seek removal of any existing use rights or avoidance of any proposal until after it properly engages with the Glenorchy Community to determine what might constitute a "significant natural hazard risk" versus what does not constitute a "significant natural hazard risk".</p> <p>Any alternative or consequential relief to address the above.</p>
