#### FURTHER SUBMISSION TO THE OTAGO REGIONAL COUNCIL'S REGIONAL POLICY STATEMENT

Thank you for providing the Queenstown Lakes District Council (QLDC) with the opportunity to further submit on the abovementioned document.

Queenstown-Lakes District Council initial submission broadly supports the intent of the ORC with regard to the development of the Regional Policy Statement (RPS). That submission outlined key details and recommendations under each section. In summary, QLDC supported some provisions of the proposed RPS, and sought amendments to other provisions in the below sections:

- QLDC seeks amendments to the Significant Resource Management Issues
- QLDC generally supports the policy statement with a few amendments sought for Air
- The section on Ecosystems and Indigenous Biodiversity has some amendments sought
- Land and Freshwater is for the most part supported by QLDC with a few amendments
- In Energy and Infrastructure, there are sections supported and opposed by QLDC and some amendments sought
- QLDC seeks amendments are made to the Transport Provisions
- Hazards and Risks provisions have several amendments sought
- QLDC supports all provisions on Historical and Cultural Values
- Natural Feature and Landscapes section is predominantly supported by QLDC and,
- Urban Form and Development section has conditional support

In its further submission (attached), QLDC details our position on submissions, as it relates to the views and priorities of QLDC and the district.

QLDC would welcome the opportunity to be heard on its submission. It should be noted that this submission represents the view of officers and has not yet been ratified by full council. Thank you again for the opportunity to comment.

Yours sincerely,

Jim Boult
