LF – FW – New provision	00502.008	Oppose in part	The concept of Te Mana o te Wai does not ‘balance’ social, cultural and environmental outcomes. LF – FW – O8	00502.005	Support in part	Inclusion of reference to water use in the objective is appropriate, to the extent that such reference requires that water use be managed in a way that will give effect to te Mana o te Wai.	Allow in part

LF – WAI – New provision	00239.076	Oppose	The relief requested duplicates a part of the NPSFM 2020 narrative in Clause 1.3(1) in isolation of its wider context, which emphasises protection of the health and wellbeing, and the mauri, of water bodies. Kia ora James

In preparing to serve copies of the Kāi Tahu ki Otago further submission on the relevant submitters, we have discovered an error in the version of the further submission we sent to you on Friday. The contents of final column in the further submissions on Federated Farmers for the Integrated Management chapter were not copied into that version. Although the intent of the further submission is clear without that content, we have made the correction in the attached version.

Can you please replace the earlier version of the Kāi Tahu ki Otago further submission we filed on Friday with the version attached here?
