\*\* 'Yes' The service provider may employ a sub contractor

\* 'No' The service provider may be able to organise verification or servicing of your device

**Disclaimer:**

Please ensure you are viewing the most up to date version of this list by accessing it via our website (<https://www.orc.govt.nz/consents-and-compliance/water-metering-and-measuring>).  
The Otago Regional Council **accepts no liability** whatsoever for any errors, inaccuracies or omissions in relation to the information included in the table.

The table provides a selection of suppliers of water measuring services in Otago. Otago Regional Council recommends dealing with water service providers that have achieved the Irrigation NZ Blue Tick approval. This helps with a smoother compliance process and reduced cost.

The Otago Regional Council does not take any responsibility for the goods and/or the services provided by the companies on this list.

✓ For more information about the Blue Tick program see <https://www.irrigationnz.co.nz/accreditation>

Data Hosting companies work with local companies that act as their service agents when there are issues with your water meter, datalogger, telemetry or recording equipment. Data Hosting companies are only collecting data through telemetry and making it available on a website you can access. They can pass it on to ORC on a daily basis if you have instructed them to do so. This is the easiest way to comply with your reporting requirements.

Data Services Providers (Data Hosts)	Data Hosting	Local Agents
✓ - Blue Tick Approved (preferred)
