Subject: Proposed RPS 21 (Non-freshwater parts) - Request for extension for evidence in chief

Importance: High

Hi,

Minute 3 of the Hearings Panel decided the following timetable for the lodging of evidence with the ORC.

- a. All evidence in chief including expert evidence received by ORC by Wednesday 23 November 2022
- b. Evidence in chief available on ORC website by Wednesday 30 November 2022
- c. Any Rebuttal evidence received by ORC by Wednesday 14 December 2022
- d. Rebuttal evidence available on ORC website by the end of Monday 19 December 2022

Unfortunately we are struggling with staff absences due to Covid and will be unable to have all our evidence in chief including expert evidence available by Wednesday 23 November.

Given this, we would appreciate an extension until Monday 28th November.

Our evidence will principally be relatively small Word documents and can be formatted in whatever way you want to facilitate easy uploading to your website.

Thank you for your consideration.

Kind regards

Paul Freeland
