The application in its entirety

My ~~our~~ submission is *(include: whether you support or oppose the application or specific parts of it, whether you are neutral regarding the application or specific parts of it and the reasons for your views).*

I support the application as it will be the catalyst to invigorate what is becoming an increasing eyesore. Trends in commercial fishing indicate that the wharf will not be needed in the future to service local fisheries. An alternative use needs to be found to justify investment in the wharf and stop the rot. It would appear the application has struck the right balance between personal desires and public good (First responders and disability access to the water). As I understand it the proposed

development may be used for temporary AirBnB accommodation – but this creates a red heron for objectors – anyone can AirBnB their property, so it is simply a way of trying to make the numbers work. It will also provide local part time employment opportunities. The proposed design will fit in with the local environment and indeed enhance it. I have childhood memories of visiting Taieri Mouth, and we were regular visitors during my rowing days when we would row from Henly to Taieri Mouth and return – the reward was an ice cream at the local store – this closed a long time ago. Time to stop the rot. Lets hope the process results in a commonsense outcome and the negative tall poppy syndrome does not prevail!
