Kia ora

Following up from our meeting on 29 March 2011, between representatives from Oceana Gold and Kati Huirapa Rūnaka ki Puketeraki.

The Rūnaka have met and discussed your proposal in respect of the Macraes Phase 111 application.

As alluded to at the meeting we do not feel comfortable with the wording 'Cultural Impact Assessment'. Our preference would be that this be changed to Previous Engagement with Kati Huirapa Rūnaka ki Puketeraki

The Rūnaka are agreeable to all other points included in the proposal in order for Oceana Gold to go ahead and lodge the application, without a Cultural Impact Assessment, which should be done by experts endorsed by the Rūnaka.

In the near future we will provide Oceana Gold with a scoping report to progress the Cultural Impact Assessment

Please note that the Rūnaka reserves its position on this proposal, and its right to lodge a submission when the application is notified.

Nāhaku noa nā

A handwritten signature in blue ink that reads "Suzanne Ellison".
