E-mail

Address

Private Bag 12023 Tauranga 3143

I would like to speak with

Council about my submission (week starting

No

22 May)

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Any comments?

Trustpower agrees with Council that civil defence is about people, not property, therefore everyone should pay the same. Basing the rate on Capital Value (CV) would result in a disproportionately high rate for high CV properties, such as those associated with Trustpower's hydro electric power schemes. The rate levied would be disproportionate in comparison to the services or benefits received. Trustpower considers that option one is the most appropriate rating methodology for funding CDEM activities.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a riskbased approach to dairy farm inspections for compliance monitoring?

Yes

Any comments?

Trustpower considers that the approach proposed is a suitable and efficient way to manage dairy farm compliance inspections.

Do you support an accelerated programme to determine minimum flows?

Do you support funding the deemed water use permit transition work for Yes the Water Management Reserve?

Any comments?

As a deemed permit holder, Trustpower would appreciate the opportunity to be consulted in the development of minimum flows.

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a riskbased approach to dairy farm inspections for compliance monitoring?

Yes

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for No the Water Management

Reserve?

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Yes

Do you support extending the Wakatipu targeted rating area for public

transport to include Jack's Point?

Any comments?

You need to start pre-empting needs in our community, so yes include Jacks point

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Any comments?

Our district has been hopelessly under protected by the current (pre election) regime, Our Lakes are a disgrace. What has happened to Lake Hayes under your care?? forget elaborate new buildings while our assets have been so neglected. We need ORC counsellors here locally to do the work that hasn't been done remotely

How should we structure the rates for the Lower Waitaki River scheme?

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Lake snow increased workplan

Yes

Lake restoration scoping

Yes

work

Yes

Wallaby control

Yes

Climate change adaption

(Clutha delta)

Any comments?

Wallaby control and eradication should be taken as a crucial priority. If they get into Fiordland they will be there for ever and it will

be your fail (for ever).

They arent that far away now. Take total eradication as a test case for the govt proposed total eradication of pest policy, ask govt for funding, and get rid of them, once and for all

Any comments?

Not familiar enough with it to comment

Would you like to make comments or provide feedback on any of the other proposed changes?

NO change to Dunedin building till you have proved your worth on the above

You can edit this s (bmission and view...] pur submissions easily.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a riskbased approach to dairy farm inspections for compliance monitoring?

Yes

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for Yes the Water Management Reserve?

Any comments?

Old existing deemed permits are an obstruction to fair water allocation so best extinguished in timely manner, support funding for this process

Do you support the increased subsidy of public transport in the

Wakatipu Basin?

No

Do you support extending the Wakatipu targeted rating area for public

transport to include Jack's Point?

Any comments? Got to do something soon as airport and main

road resemble Auckland rush hour chaos. A better bus service is needed, and if more subsidy can improve it, use it. Glad I don't

live there

When do you think we should open a new office in Queenstown?

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

How should we structure the rates for the Lower Waitaki River scheme? Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Any comments?

Irrigation is tricky and expensive. If a project is unable to finance on its merits/returns then ratepayer subsidy will not improve this

Lake snow increased workplan

Yes

Lake restoration scoping

work

Yes

Wallaby control

Yes

Climate change adaption

(Clutha delta)

No

Any comments?

sea level rise in years to come? speculative! alarmist! how will scoping help prevent natures course?

Do you support the change to our Significance and Engagement policy for strategic assets?

No

Any comments?

After looking for information and not finding anything of significance have to say NO here

Would you like to make comments or provide feedback on any of the other proposed changes? The plan to build new HQ offices in Dunedin is outlandish, wasteful, and will be squandering ratepayers money. I do not support this project. There are probably many existing premises potentially elsewhere (Invermay). Get on with the main functions of Regional Council, and shelve the grandiose plans.

Regional Council bit ratepayers unfairly when donating \$37 mill to the Stadium build and then disallowed objections at that time by saying it was not in the annual plan. Apart from this I think ORC is doing a great job

Any comments?

Wallaby control

Options are a bit broad. A lot depends on whether there is chemical control or environmentally sustainable control. What ahout rabbits, no mention and a major issue.

Do you support the change to our Significance and Engagement policy for strategic assets?

No

Any comments?

No consultation is not democracy

Would you like to make comments or provide feedback on any of the other proposed changes? Mostly concerned with the summer diversion of the Cardrona river, it is not acceptable to leave it dry.

Also no mention of farmer burn offs. This has been unregulated for too long in this age of global warming. Also need to address intensive use of fertilizers, run off into streams and rivers, grazing on water edges, still happening in wanaka area. If you want to address water pollution look at the obvious sources.

Civil Defence and Emergency Management.doc

#### Hi

I had may say 1989 local government reforms, but we are all wondering WHY it has taken many years to put a plan for people together, not a plan for council consultants.

The rate are all gone, they need more dosh, pay the bill, rate more.

They LOVE it?

Regards Glen Callanan Clyde

NOTE

Like the rest of the ORC submission will make more comments...

#### Civil Defence and Emergency Management (CDEM)

- Option 1 Uniform targeted rate (\$25.89 )per property
   Note: A universal rate from all council's residents and ratepayers will need to be a part of
   the rate mix. As when Emergency Fire New Zealand comes into effect, all service groups will
   need to be part of the overall PLAN.
  - Each fire station has a business hub.
  - Local service groups train at training centre i.e. NZED building Clyde Rail head.
  - Fire Station has a sign with each groups icon

The community boards are all gone bar one for each council i.e Central Otago Community Board to save the damage that has accrued since local government reform 1989.

**OTHERS** 

 Queenstown Lakes FRENZE 17.2 million some ten years ago of ratepayers rates. From a rating base of 30 million?

Submission ORC Civil Defence Glen Callanan Clyde Overall Plan

- 2. DCC account extreme to ORC.
- 3. ORC accounts extreme to DCC.
- 4. OTHERS

The councils will be gone sooner rather than later for not supporting the CLYDE Community plan overall plan as a starting point for all ages, even the lost generation? The old old Clyde ,Have a SAY.

The Government will have no option to appoint government boards to run the country.

Who will be the commissioners appointed to run the council, the one that set it all up, they know that?

The council ORC needs to FOCUS on the correct boundaries for the correct change....

- 1. Consistency wards.
- 2. Fire boundaries.

NOTE: Vincent 10D needs to stay on the Earnscleugh station side of Lake Dunstan. The people don't want a republic, Hillary got a million more votes than Trump but Trump got in?

Regards

Glen Callanan

**CLYDE**

other proposed changes?

I cannot understand why \$14m needs to be spent on a new building in Dunedin. In comparison spending \$100,000 on the lake snow problem in the southern lakes is a drop in the ocean. Should the lake snow develop into an even bigger problem what future effect will this have on the region. Clean green image gone. Tourists gone. Industry gone. Surely the \$14m currently allocated to the new HO should be scrapped and a greater allocation of money be poured into the cause of the lake snow and also remediating the lakes (Lake Hayes etc). Also while the money spent on wallaby control is good, surely a greater amount should be spent with the goal being eradication.

Again the \$14m proposed to be spent on a new HQ is ridiculous when you consider this figures against what has been allocated to activities that have the potential to be high risk such as those outlined above. More money needs to be allocated to these high risks before they eventuate.

You can : dit his submission and view all cour submissions easily.

Draft Annual Plan 2017/

Name

Marielle Craighead

Organisation

E-mail

Address

I would like to speak with Council about my submission (week starting 22 May)

No

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a riskbased approach to dairy farm inspections for compliance monitoring?

Yes

Any comments?

As long as the risk assessments are actually carried out as proposed.

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for No

the Water Management

Reserve?

No

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Do you support extending the Wakatipu targeted

rating area for public transport to include Jack's Point?	No
Any comments?	People living in the Wakatipu basin should pay for their transport and I see no reason why I should, given that the only way for me to get to Queenstown is using my own transport!
When do you think we should open a new office in Queenstown?	Option 2: Delay proposal until the next Long Term Plan process (2018/2019)
How should we structure the rates for the Lower Waitaki River scheme?	Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	Yes
Climate change adaption (Clutha delta)	Yes
Any comments?	Not at all sure what this is? Nowhere to be found in the booklet (that I could see, anyway).

Your measurement of bus reliability in Dunedin is poor - 95% of all buses may well leave the terminus on time, but they definitely don't keep to the timetable for very long. When is Dunedin going to catch up with other cities and introduce Real Time Bus Information at bus stops and online so that passengers can be sure of how late their bus will be while they wait? Also, can the Numbers 1 and 2 buses run at weekends? Some of us live and work in the city but would like to go to the Waitaki coast at weekends without needing to drive or cycle all the way. If the Harington Point service could also run more often and terminate nearer Taiaroa Heads that would also be handy for tourists as well as for locals wishing not to drive, reducing the risks on the dangerous Portobello Road and encouraging sustainable

Address

I would like to speak with Council about my submission (week starting 22 May)

No

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a riskbased approach to dairy farm inspections for compliance monitoring?

Yes

Any comments?

Intensive dairy farming is the greatest risk to the quality of rural water. Poor quality water affects the life of the people who live near it, and use it for recreation, as well as the natural life that lives within it.

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for Yes the Water Management Reserve?

Any comments?

As you say in the feedback document, to suck a river or stream dry is completely wrong. Farmers need clear and enforceable requirements in this respect. Their financial budgets including stocking, needs to be based on the reality of how much water they are permitted to access. [ according to seasonal

and climatic realities ]

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Yes

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Yes

Any comments?

Please regard very carefully my comment. You have failed to take the bus routes into the two new major retail Precincts in the %- Mile area. I depend on bus transport to access these locations. There are large numbers of relocated retailers, or new retailers in both of these locations. I cannot access similar retailers in other precincts. The retailers in the 2 new precincts sell products essential for my basic needs of life. It is extremely unsafe for me to negotiate the nearby main highway to enter these precincts.

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Any comments?

Do not site this office in Queenstown CBD. Rather site it in one of the outlying retail Precincts [ not Terrace Junction ]. If you have the office out of the CBD, the rent will be less, and it will also be easily accessible to the local rate Payer.

Any comments?

Not a resident so prefer not to comment

Lake snow increased

No

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property.

Any comments?

A little divided on this one.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a riskbased approach to dairy farm inspections for compliance monitoring?

Yes

Any comments?

This is hugely significant for future generations and seem to be very far behind what should already be in place considering the damage already done to our natural waterways. There has been enormous changes over my lifetime and sadly not for the better. I would hope that rigorous inspection and compliance is achievable, and soon.

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for Yes the Water Management Reserve?

Any comments? I have a concern that minimum water flows

will mean 'minimum', and maximum water use

will be 'maximum'

Is this the best we can expect in the future?

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Yes

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Yes

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

How should we structure the rates for the Lower Waitaki River scheme? Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Lake snow increased workplan

Yes

Lake restoration scoping

Yes

work

Yes

Wallaby control

Climate change adaption

(Clutha delta)

Yes

Any comments? All of these things are important

Funding is always hard to come by but something done is better than nothing.

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes

Would you like to make comments or provide feedback on any of the other proposed changes? The environment is largely in our hands. It is to hoped that it will not become a battlefield for various commercial interest groups. The Regional Councils are an important guardian to maintain a balance that seeks to ensure that our natural resources remain a healthy

provider for all into the future.

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Would you like to make comments or provide feedback on any of the other proposed changes? Regarding management of wilding pines and your proposed \$1 per hoousehold. Really? You think this is sufficient? \$100,000 total budget. Your own reports suggest a hectare coverage of around 300,000+ being affected... so you propose only marginally over \$3 per

hectare to manage and eradicate??? I'm not going to even being to estimate how many trees grow inside a hectare (...in the Queenstown Lakes district...dense infestations) and your same information states 'It is estimated that wilding comfers are spreading at around 5% annually. Failure to control their spread at an early stage can quickly lead to increasing numbers of trees taking hold, and the costs of control escalating exponentially.' You still think you are budgeting for the scale of the issue?

Unless you increase the budget to tackle the scale of the issue, you are simply wasting taxpayers money. \$100,000 will only scuff the surface and within a year growth rate will outstrip and removal affected by this \$100,000 spend. I'm sure many other taxpayers would be less than happy at their paltry contribution being wasted.

Delay the build of your Queenstown Office and use finances to tackle this issue that is getting out of control, ruining natural ecosystems and erosion and escalating into a larger and larger financial issue.

public transport in the Wakatipu Basin?

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Yes

Any comments?

We cannot make an informed decision with the little information provided here, in particular re costs

How should we structure the rates for the Lower Waitaki River scheme? Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Lake snow increased workplan

Yes

Lake restoration scoping

work

Yes

Wallaby control

Yes

Climate change adaption

(Clutha delta)

Yes

Any comments?

Apply "User pays", ie increase targeted rates from those who use water not personally but commercially, ie who gain financially

Do you support the change to our Significance and Engagement policy for strategic assets?

No

Any comments?

It does not define clearly what strategic assets are, thus leaving it to be decided by just a few behind closed doors, instead of by us, the public

Would you like to make comments or provide feedback on any of the other proposed changes? the plan is lacking a confirmation to spend our money locally, ie engaging local contractors where possible, even though (slightly) higher costs might be associated with it; it is not sustainable to outsource everything like waste disposal or work on a new ORC building in Dunedin (local consultants & contractors)

transport to include Jack's Point?

When do you think we should open a new office in Oueenstown?

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

How should we structure the rates for the Lower Waitaki River scheme?

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Lake snow increased workplan

Yes

Lake restoration scoping work

Yes

Wallaby control

Yes

Climate change adaption

(Clutha delta)

Yes

Do you support the change to our Significance and Engagement policy for strategic assets?

No

Would you like to make comments or provide feedback on any of the other proposed changes? The Queenstown/Arrowtown basin has major issues with wilding pines and firs which is boosted by the council-owned forest below Coronet Peak. More priority, funds and community support should be allocated to control the issue as a lack of progress will change the landscape within a 20 year period. This has the added potential of negatively affecting tourist perceptions of the unique look of the area who are the major source of local livelihoods.

Climate change adaption (Clutha delta)

Yes

Would you like to make comments or provide feedback on any of the other proposed changes? The wilding pine problem is accelerating especially in the Wakatipu Basin area, with a number of other hotspots in the QLDC area. The longer it is left the higher the cost are going to be year by year to control the spread, the \$100k allocated is a is not sufficient and a concentrated effort is needed now in hope of gaining any control. Community groups are doing what they can but the area of spread and density of coverage requires a larger, well resourced and co-ordinated approach, right now. The rate of spread is alarming and the indigenous biodiversity, high country farming and tourism that drive this area are all under threat as the high country is being changed into an exotic monocultural forest of no environmental, economic or community value. Given the urgency of the situation I submit that this rate should be significantly raised to at least \$500k in the QLDC area alone.

We need significantly more funding for wilding conifer control. The hills behind Arrowtown are fast becoming a pine forest. As part of a local group we try and make a start with Wilding control, but funding and support from Regional council is needed. Why is this not even an item on this questionnaire? **Thanks** Arjan

Would you like to make comments or provide feedback on any of the other proposed changes?

A proposed 14% increase is outrageous. Any increase over the current inflation rate is effectively mis-management. Local councils have a regulated maximum rates increase. The ORC has a MORAL obligation to plan and work within this constraint too. Year after year the ORC rates go up by ridiculous amounts. To try and pass this off as "the total dollar increase...is relatively low" (page 13 of the feedback document) is almost criminal deception. 14% is totally unacceptable and RELATIVELY HIGH in comparison to other costs in the real world. Surely every individual that works for the ORC must be embarrassed by this plans excess.

I would like to speak with Council about my submission: This would be in the week starting 22 May.

If yes, please provide a contact phone number

How do you think we should structure the rates for civil defence and emergency management?

Option 1. Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property.

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

#### Rural water quality

Do you support our water quality environmental risk-assessment programme?

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

Minimum flows and deemed water use permit replacement

When do you think we should open a new office in Queenstown?

Option 1, Establish an office in Queenstown in the 2017/2018

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme largeted rate (status quo)

Do you support an accelerated programme to determine minimum flows?

Do you support funding the deemed water use permit transition work from the Water Management Reserve?

Do you support the following activities?

No Lake snow increased workplan. No Lake restoration scoping work Wallaby control No

Climate change adaption (Clutha delta)

Engagement policy for strategic assets?

Do you support the change to our Significance and

No

No

#### Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Would you like to make comments or provide feedback on any of the other proposed changes?

treep original property - do not back on forestine - backer area forestine of Chinate change - which will overtrally ood those areas - 100 -200 year.

Please add additional paper as required.

#### How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25,89 per property) Everyone in Otago pays the same amount - regardless of the value of their property.

Option 2: 50% uniform tergeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone

#### Rural water quality

Do you support our water quality environmental risk-assessment programme? No

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

#### Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows?

Do you support funding the deemed water use permit transition work from the Water Management Reserve?

#### Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in tha Wakatipu Basin?

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

#### When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018

Option 2: Delay proposal until the next Long Term Plan process (2018/2019).

#### How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

#### Do you support the following activities?

No Lake snow increased workplan. Lake restoration scoping work **Yes** 

Nο Wallaby control Yes. No Climate change adaption (Clutha delta) Yes 11/0

Do you support the change to our Significance and Engagement policy for strategic assets?

No Yes

Would you like to make comments or provide feedback on any of the other proposed changes?

How do you think we should structure the rates for	or civi
defence and emergency management?	

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

#### Rural water quality

Do you support our water quality environmental risk-assessment programme?

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes No

#### Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows?

Do you support funding the deemed water use permit transition work from the Water Management Reserve?

Yes No

# scheme targeted rate (status quo) Do you support the following activities?

Lake snow increased workplan

Lake restoration scoping work

process (2018/2019)

Wellaby control

Climate change adaption (Clutha delta)

Yes

No

√ No

Yes 1/No

#### Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Waketibu Basin?

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Yes

No

#### Do you support the change to our Significance and Engagement policy for strategic assets?

Yes

Would you like to make comments or provide feedback on any of the other proposed changes?

RATES NEED TO BE BASED ON WOOME NOT PROPERTY WARREST WILDING TREE FUNDS SHOULD BE USED FOR CONTROLLING MURE INVASSIVE SPECIES CUTE BROOM & BRUNK' & GORSE. Please add additional paper as required.

### Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

### How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs ere paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

### Do you support the following activities?

Lake snow increased workplan Lake restoration scoping work Wallaby control

Climate change adaption (Clutha delta)

## Do you support the change to our Significance and

Engagement policy for strategic assets?

Would you like to make comments or provide feedback on any of the other proposed changes?

Don't understand what this means???

No

Please add additional paper as required.

### **Rural water quality**

Our approach to water quality in rural areas allows landowners to make their own decisions on how they manage their land – so long as their activities don't pollute lakes, rivers, wetlands, or groundwater (or breach our Water Plan).

By 2020 rural landholders need to limit the amount of  $E.\ coli$ , nitrogen and phosphorous going into freshwater. Many landholders are taking steps now to manage their impact on water quality in order to comply by 2020. To help landholders, and monitor progress towards this goal, we are planning to undertake environmental risk assessments on all rural properties and large lifestyle properties over the next three years.

These assessments will help increase landholders' understanding of what they need to do under the Water Plen, what risks to water quality might be present on their property, and how to take steps to address them.

As well as risk assessments, we're proposing to carry out catchment studies in five catchments every year. These will involve intensive water sampling within a catchment to help both council and the community understand the pressures particular rivers are facing and identify ways to improve water quality

Our rural water quality targeted rate will need to increase from \$639,000 to \$1,190,000. Examples of what we estimate the rural water quality targeted rete would be for various sample capital values are shown below.

Capital value			
\$300,000	\$750,000	\$4,000,000	
\$20.68	\$51.69	\$275.68	
\$21.86	\$54.65	\$291.44	
\$20.98	\$52.45	\$279.72	
\$29.65	\$74.12	\$395.28	
\$22.69	\$56.72	\$302.48	
	\$20.68 \$21.86 \$20.98 \$29.65	\$300,000 \$750,000 \$20.68 \$51.69 \$21.86 \$54.65 \$20.98 \$52.45 \$29.65 \$74.12	

### Risk-based dairy farm inspections

To date, we've been aiming to visit every dairy farm every year. We want to move to a risk-based model, which prioritises the farms most at risk of impacting water quality. This will mean that some farms may get two or three visits a year, and others may only get e visit every second year. Overall, it means more visits in total and will focus our attention where it's most needed. It also means that the rata we charge for this will need to go up to \$478 per dairy farm, compared to \$325 last year.

### What do you think?

### RURAL WATER QUALITY RISK-ASSESSMENT PROGRAMME

This activity is funded by general rates (25%) and a rural water quality largeted rate (75%) which is charged to all rural land use properties (regardless of size) and to all lifestyle properties 2 hectares and above.

Do you support our environmental risk-assessment programme?

### **RISK-BASED DAIRY FARM INSPECTIONS**

This is a fixed targeted rate of \$478 for every dairy farm (compared to \$325 last year).

Do you support the risk-based approach to dairy farm inspections?

## Civil defence and emergency management (CDEM)

Regional Councils play a critical role in civil defence and emergency management, from the early identification of natural hazards through to responding to actual events.

Until recently, CDEM officers in Otago were employed separately by each of the different local authorities. Now, all the officers are employed directly by the Regional Council, which is helping us work more efficiently together on a day-to-day basis – and will help ensure we're better prepared to respond as effectively as possible in an emergency situation.

The new way of working is already seeing results, with a new civil defence website launched in 2016 (www.otagocdem.govl.nz). Otago CDEM staff also stepped up to support the response efforts to the earthquake in North Canterbury last year.

This year, we're proposing to appoint new staff in training and community education roles. These staff will work with both council staff and the community to increase our readiness and resilience

With civil defence and errergency management costs now centralised with the Regional Council, we need to decide on the fairest way to pay for them.

## What do you think?

How do you think we should structure the rates for civil defence and emergency management?

### Option 1 Uniform targeted rate (\$25.89 per property)

If we pay for it this way, everyone in Otago will pay the same amount for civil defence and emergency management – regardless of the value of their property.

### Option 2 50% uniform targeted rate and 50% general rate

Examples of what we estimate the rates payable for emergency management per ratepayer would be for this option are shown below:

		Capital value	
	\$300,000	\$750,000	\$4,000,000
Central Otago district	\$20.56	\$26.89	\$72.61
Clutha district	\$20.81	\$27.51	\$75.91
Dunedin City	\$20.63	\$27.07	\$73.58
Queenstown Lakes district	\$22.50	\$31.75	\$98.51
Waitaki district	\$21.16	\$28.40	\$80.65

### Our preferred option and why:

Our preference is Option 1 on the basis that civil defence is about people - not property. In the event of an emergency, the nature and value of your property isn't relevant, so we think it's fairer for everyone to pay the same.

Tell us which option you prefer.

## Arrowtown Queenstown Kelvin Peninsula Jack's Point

extended rating area

Current rating area

### **Public transport in Wakatipu**

We are working with Queenstown Lakes District Council and the NZ Transport Agency to make significant improvements to public transport in the Wakatipu Basin.

This includes the proposal of significantly reduced bus fares across the Wakatipu for those using a GoCard, along with amendments to routes and timetables. With funding support from Queenstown Lakes District Council currently being consulted on via their Annual Plan process, we hope to trial a

The changes are a significant step towards providing a public transport service that is attractive to both residents and visitors and helps ease traffic congestions in the area. The service would be subsidised by the Transport Agency, Queenstown Lakes District Council and Otago Regional Council. Otago Regional Council's share would be \$600,000, funded by a targeted rate on properties in the Wakatipu Basin. This is an increase from \$55,000 rated last vear.

The changes would also see public transport service provided to Jacks Point so we're proposing that the targeted rating area is extended to include properties who will benefit from the improved service. Sample rates that would be payable by ratepayers in the special rating area for Queenstown public transport are shown in the table below:

	\$300,000	\$750,000	\$4,000,000
Class A – non residential	\$31.21	\$78.02	\$416,12
Class B - others	\$15.61	\$39.02	\$208.08

### What do you think? Cost \$600,000

Do you support the increased subsidy for public transport in the Wakatipu Basin?

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

## Minimum flows and deemed water use permit replacement

We're responsible for setting minimum flow limits for rivers and levels for aquifers and lakes in Otago. Minimum flows and levels ensure that economic use of water continues while enough water remains in our lakes, rivers and aquifers to maintain their aquatic ecosystems and natural character.

Many farmers in our region rely on water from rivers to irrigate their farms and sustain their business. In Otago we're in a unique situation, as we have several hundred irrigators with existing water use permits, many of which date back to goldmining days.

Back when many of these permits were granted, no one looked at how much water was available or gave any thought to protecting stream flows and river habitat. This led to an over-allocation of water in some places.

Today, we think about our water resources quite differently and our regulation reflects a fairer approach to how water is allocated. With these deemed water use permits expiring in 2021, there is a need to give certainty to irrigators on how much water is available for their use, white also giving the wider community assurances that recreational, cultural and ecological values will be protected.

To do that, we're proposing to accelerate our minimum flow setting programme to get all flows needed to inform replacing the permits set by 2019.

We've been working with permit holders to assist them to make the transition to new resource consents. As we believe water sharing and rationing is better managed at a local level, we're also encouraging water users to work together within their catchment as water management groups.

We remain committed to this work in the lead up to the deemed water use permits expiring in 2021, but have reconsidered how best to fund this activity. It was previously funded by general rates, but we are proposing to use our water management reserve for this.

We want your feedback on whether you support this idea.

### What do you think?

### MINIMUM FLOWS PROGRAMME

Do you support an accelerated programme to determine minimum flows?

### **DEEMED WATER USE PERMIT TRANSITION WORK**

### Cost \$526,000

Do you support funding the deemed water use permit transition work from the Water Management Reserve?

Submissions close 12 May.

### P. Draft Annual Plan 2017/18

Name

Tony Hill

. 2

E-mail

Address

I would like to speak with Council about my submission (week starting 22 May)

No

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a riskbased approach to dairy farm inspections for compliance monitoring?

Yes

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for Yes the Water Management Reserve?

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Yes

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Yes

Any comments? Need to ensure current bus route in Fernhill

which goes along Sainsbury Road is

maintained for the College Hall of Residence and Novotel Hotel. New bus route doesnt

include Sainsbury road in Fernhill,

Queenstown

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in

the 2017/2018 year

Any comments? Definite oversight not retaining your presence

in Queenstown

Would you like to make comments or provide feedback on any of the other proposed changes? Increase in rates should only come into effect when you have improved the services as the ORC has sufficient cash reserve funds to initiate the changes like the subsidised bus

route in Queenstown.

You can edit this submission and view all your submissions easily.

Organisation (if applicable)

Otago Regional Council

I would like to speak with Council about my submission:

If yes, please provide a contact phone number

This would be in the week starting 22 May.

How do you think we should structure the rates for civil deterice and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

### Rural water quality

Do you support our water quality environmental risk-assessment No

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

### Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows?

Do you support funding the deemed water use permit transition work from the Water Management Reserve?

Public transport in the Waketipu Basin Do you support the increased subsidy of public transport in the Wakatipu Besin?

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

### How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leeve all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Do you support the following activities?		
Lake snow increased workplan	Yes	No
Lake restoration scoping work	Yes	No
Wallaby control	Yes	No

Do you support the change to our Significance and Engagement policy for strategic assets?

Climate change adaption (Clutha delta)

ght ones Ask if you need to inviest more in QLDCI

Would you like to make comments or provide feedback on any of the other proposed changes?

Yes

your plan does not contain enough detail or YES proposals. The OR ( does not seem to have understood how serious he imprations of growth are on QLD ( or he need to act NOW regarding Lake Sn Blease add additional paper as required.

Submissions to ORC Work programme 2017/2018

Otago Regional Council Freepost Private Bag DUNEDIN 9054

Dear Sirs/Madam

RE: Annual Submissions

I note in the current 2017/2018 ORC programme no reference to the Oamaru Harbour. Is this an oversight or is there no plan relating to this area? Whose responsibility is the Harbour? Is it the Waitaki District Council or Otago Regional Council? There would seem to be some work done in the harbour which is usually minimal. E.g. a very dilapidated dingy launch structure which is regularly used by those who have moored boats. It has been patched and that is all. Another further along both on the west side of the harbour has never to my knowledge been attended to.

### **Moorings**

There would seem to me as a person who owns a boat moored in the harbour a lack of delineation as to who does what. We do not seem to have a duly appointed and equipped mooring inspections person who has this appointed to do this important task. I have spoken to Kevin Waters from Carey's Bay a few months ago. Kevin had done my own mooring few years ago and that of a few others. In my opinion he should be appointed to do this to ensure that moorings are done correctly. Kevin replied that he was awaiting formal appointment as a duly equipped person to do the moorings. Kevin could/would do a good job and has the expertise to do this.

There appears to be a waiting list for people who want to have a mooring. There are craft owners whose boats/craft do not appear to be used and yet sit on doubtful moorings. I am sure that they have not had their moorings checked and in point of fact pose a risk to other users when their craft break loose. This is happening on a regular basis. The most recent occurrence was in early April of this year. This yacht whose owner is an absentee no longer in this area and again who is not using his yacht should in reality be asked to remove his yacht or be asked to have his mooring brought up to the required standing with secured linkages. Another yacht did the same thing last year. Also others appear to be in the harbour without due authority. Do they pay a fee?

### Salvage

With the recent grounding of the fishing trawler the Jane-Marie on the rocks outside the Oamaru Harbour entrance and the subsequent breakup of the same trawler the role of who does what appears to be unclear. Whose job is it to maintain the entrance? Who inspects the entrance? Is it done on a regular basis?

### Launch ramp

There are two launch ramps which are essentially owned by the Oamaru Yacht and Power Boat Club. In reality they are privately owned by the Club. There is no public ramp and can only be used by a visiting power boat owner if he pays a fee to the Club. Both are chained off with one very rarely

used. Should there be a public ramp? Other areas seem to have a public ramp e.g. the Lakes and Moeraki. I am not sure about the Dunedin area.

### Floating Jetty

With the pressure on the harbour should there be a floating jetty as in other areas e.g. Cromwell Lake Hawea as two examples. Frankton has a mooring area as does Wanaka.

The above area areas of concern/responsibility that in my opinion should be better managed and defined.  $\gamma$ 

Best wishes

Ron Sim
