Submissions close 12 May.

Name _____ Organisation (if applicable) _____
Email _____ Address _____

I would like to speak with Council about my submission: Yes No
This would be in the week starting 22 May.

If yes, please provide a contact phone number

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Rural water quality

Do you support our water quality environmental risk-assessment programme? Yes No

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes No

Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows? Yes No

Do you support funding the deemed water use permit transition work from the Water Management Reserve? Yes No

Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Do you support the following activities?

Lake snow increased workplan	Yes	No
Lake restoration scoping work	Yes	No
Wallaby control	Yes	No
Climate change adaption (Clutha delta)	Yes	No

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?

*YOU WANT FEEDBACK - BUT DO NOTHING ABOUT THE RABBIT PROBLEM
THIS IS WHY PEOPLE CAN'T BE BOTHERSO WORKING*

Please add additional paper as required

I would like to speak with Council about my submission (week starting 22 May)

No

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

Yes

Any comments?

It's far cheaper to monitor, manage and maintain water quality than to try to recover it.

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve?

No

Do you support the increased subsidy of public transport in the Wakatipu Basin?

No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's

Yes

Point?

When do you think we should open a new office in Queenstown?

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

How should we structure the rates for the Lower Waitaki River scheme?

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Lake snow increased workplan

Yes

Lake restoration scoping work

No

Wallaby control

Yes

Climate change adaption (Clutha delta)

Yes

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes

You can [edit this submission](#) and [view all of our submissions](#) easily.

From: Brian Turner
To: Annual Plan
Subject: Submission
Date: Wednesday, 12 April 2017 10:12:29 p.m.
Attachments: My Submission to ORC April 17.doc

ORC,

Apols for being a few hours late with this. I got home to Oturehua late (7 pm) after being at a meeting in Alexandra re water and other issues until nearly 6pm.

Submission/Response from Brian Turner (Chairman/President COES) to ORC's call for submissions related to the Manuherikia Integrated Water Management & ORC feedback session Summary of Values reports March 2017; also the call for submissions on the ORC's annual plan.

Firstly, I wish to advise that in my capacity as Chairman/President of the Central Otago Environmental Society I asked members of our committee to, if possible, lodge individual submissions on their own behalf. Why? In part because of the short time available in which to put together a response from the group as a whole, and because I felt that a few individual submissions would ensure we provided a more comprehensive overview of where COES stands.

I'm confident that the majority of our committee would be in accord with much of what I have to say here. (In this regard I wholeheartedly support the views expressed by, for instance, Matthew Sole and Jillian Sullivan, both members of the COES committee.)

Scientists everywhere remind us that all systems have their limits but, alas, in New Zealand, and elsewhere, many of our politicians and members of the public appear to believe there are no limits to 'growth', and refuse – or see ourselves as unable - to stop acting in ways that continue to result in degrading the natural environment.

In Central Otago the Manuherikia and our rivers and streams generally are greatly valued recreationally (for fishing, hunting, swimming, picnicking and so on) and ecologically - when they are allowed to maintain their natural values, their inherent diversity. But the Manuherikia and other waterways throughout the region suffer from overallocation resulting in dewatering in many reaches.

In some parts there's more algae and silt than there ought to be, used to be. This is not 'progress', quite the opposite. I put it to you that a lot of what is termed 'progress' and 'development' has, when related to our natural environment, resulted, and continues to result, in one or other of three words beginning with 'd' : degradation, destruction, or depletion.

Minimum flows at Ophir and elsewhere – below Galloway for example – are insufficient whichever way they're looked at. This is an unpalatable truth.

In all sorts of ways our lands and waters continue to be put under the sorts of pressures that

are unsustainable if natural values and recreational opportunities are to be protected and, in some cases, enhanced. As Ronald Wright said in his 2002/3 Massey Lectures, called – perhaps ironically – *A Short History of Progress*,

'If civilization is to survive, it must live on the interest, not the capital, of nature. Ecological markers suggest that in the early 1960s, humans were using about 70% of nature's yearly output; ... ' and in 1999, we were at 125%'. He added that such figures 'mark the road to bankruptcy.' I quake to think of where we're at now.

Margaret Atwood put it succinctly in her book *Payback*, saying that, worldwide, 'Nature is calling in her debt'. That reminded me of Paul Kingsworth's view that 'most of us' including 'much of the mainstream environmental movement are still wedded to a vision of the future as an upgraded version of the present.'

In our society we've got to the point where a high percentage of us see land and water as commodities belonging to us rather than – as Aldo Leopold put it – 'a community to which we belong.' He went on to say that 'A thing is right when it tends to preserve the integrity, stability and beauty of the biotic community. It is wrong when it tends otherwise.'

I was born in Dunedin in 1944. Since then I've lived in Otago for 65 of those years. After time spent working in Christchurch, then Wellington, in the 1960s and early 70s, I chose to return to the south because I saw Otago as my 'homeplace'. Hence my membership of many groups and organisations that focused on environmental issues, among them Forest and Bird, Save Manapouri, Save Aramoana, Friends of the Clutha, the Otago Fish and Game Council, and the Wise Response organisation.

One of the assertions often heard, and intended as a swipe at those who express concerns about activities that are environmentally damaging, is that the 'activists' are 'against progress', or 'development', and that they are seeking to prevent people exercising their 'rights'. When such allegations are made I often remember my father who frequently felt it necessary to remind his sons that, yes, of course we had rights but it was important to remember that we also needed to have regard for our duties and/or responsibilities.

One regularly hears it alleged that 'environmentalists' are 'anti-farming', business, so-called 'progress', and so on and on. For the most part that is untrue. The greatly respected American farmer and writer Wendell Berry said that 'all good farmers are conservationists, and all farmers ought to be.' To which I'd say, 'and most every one of us, whatever we work at, should try to be'.

In my case I have considerable respect for many farmers, admire their work ethic and their land management and knowledge. One of the many untruths directed at so-called 'Greenies' is that they are anti-business in general and farming in particular. Without farming, builders, mechanics, and... the list goes on and on, we would be bereft.

My parents, bless them, began to take us to various rivers and streams and forested as well as high country lands of the south, when my brothers and I were young boys. Our waterways were, for the most part, healthier, in better condition than they are now. A lot of what's occurred, and in some parts continues, was and is termed 'progress' or 'development'. Fish and trees and water, for instance, are seen as 'resources', in other words items there to be bought and sold like 'commodities'.

When we look at the lands and forests and waters and oceans we ought to be saying, in

respect to a whole lot of things, 'let's try to do no harm'. But in order for that to occur we have to know, often, a lot more than we do about what's there, and what our actions may bring about. What about adopting the 'Precautionary principle', taking a more precautionary approach all round? Are we sure we know enough about what lives and grows in our places, what their needs are, and what effects our actions have had and continue to have?

Given New Zealand's climate, its location in the world, the size of its population relative to its land area, we ought to be able to look after our lands and waters and people and other species properly, better than we have been doing. But we're stubbornly continuing to fall short in those regards. It would be well to remember – I can't recall who said it – 'we don't inherit the world from our parents, we borrow it from our children'. And, to reflect on the truth in this: 'Nature bats last.'

Brian Turner

Do you support our water quality environmental risk-assessment programme?	No
Do you support a risk-based approach to dairy farm inspections for compliance monitoring?	No
Any comments?	This is work for DOC and Dept for Primary Industries
Do you support an accelerated programme to determine minimum flows?	No
Do you support funding the deemed water use permit transition work for the Water Management Reserve?	No
Any comments?	As above
Do you support the increased subsidy of public transport in the Wakatipu Basin?	No
Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?	No
Any comments?	This is for Queenstown District Council to do
Any comments?	Queenstown Office unnecessary

Any comments?	Dept Primary Industries to do
Lake snow increased workplan	No
Lake restoration scoping work	No
Wallaby control	No
Climate change adaption (Clutha delta)	No
Any comments?	Not work for ORC
Do you support the change to our Significance and Engagement policy for strategic assets?	No
Any comments?	ORC appears to swallow resources in administration and achieve little - it is a desk bound organisation. Local issues should be dealt with locally and national issues dealt with by central government. ORC should be disbanded, therefore no need for offices anywhere.
Would you like to make comments or provide feedback on any of the other proposed changes?	See above

Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	No
Any comments?	Lake Snow is a very soft and forgiving term, it should be called a weed that way it is clearly identified as a issue that needs dealing with. This name has obviously been brought into being by a spin doctor
Would you like to make comments or provide feedback on any of the other proposed changes?	It is very disappointing that lagarosiphon weed is not given any mention in these plans. It appears everyone is running for cover in not wanting to deal with this issue. With the lower water levels recently it is very obvious the large amount of growth that has taken place over the last few years. Please do not ignore this issue as it will only keep growing and become a major problem

How do you think we should structure the rates for civil defence and emergency management?
 Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.
 Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

When do you think we should open a new office in Queenstown?
 Option 1: Establish an office in Queenstown in the 2017/2018 year.
 Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Rural water quality
Do you support our water quality environmental risk assessment programme? Yes No
Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes No

How should we structure the rates for the Lower Waitaki River scheme?
 Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate.
 Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Minimum flows and deemed water use permit replacement
Do you support an accelerated programme to determine minimum flows? Yes No
Do you support funding the deemed water use permit transition work from the Water Management Reserve? Yes No

Do you support the following activities?

Lake snow increased workplan	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Lake restoration scoping work	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Wallaby control	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Climate change adaption (Clutha delta)	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No

Public transport in the Wakatipu Basin
Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No
Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

Do you support the change to our Significance and Engagement policy for strategic assets? Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?
Strongly support improved public transport options in Wakatipu Basin as with population growth the benefits of improved Kakanui bridge and road behind airport will be short-lived. Having seen the cost overruns in Auckland on Council buildings the \$14m proposed seems light!

Yes I had difficulty re-accessing the submission form. The only thing I had wanted to change was the point relating to

Do you support an accelerated programme to determine minimum flows? I wanted to change this to “No”

I do believe it is necessary to work through the process to establish minimum flows. It seems that in the case of the Manuherikia river this is going ahead alongside, but distinctly separate from the possibility of raising the Falls Dam which could assist the amount of water available in the river making the decision more equitable to all parties.

The Minimum flows issue is very complex and difficult to see all the implications for the many stake holders involved.

It might be where David Lange’s quote “We may need to take time for a cup of tea” could be useful.

Kind regards,

Tom

Address

I would like to speak with Council about my submission (week starting 22 May) No

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Do you support an accelerated programme to determine minimum flows? Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve? Yes

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes

When do you think we Option 2: Delay proposal until the next Long

should open a new office in Queenstown?	Term Plan process (2018/2019)
How should we structure the rates for the Lower Waitaki River scheme?	Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)
Lake snow increased workplan	No
Lake restoration scoping work	Yes
Wallaby control	Yes
Climate change adaption (Clutha delta)	Yes
Do you support the change to our Significance and Engagement policy for strategic assets?	No

You can [edit this submission](#) and [view all your submissions](#) easily.

 Draft Annual Plan 2017/18

Name Andrew Davis
E-mail
Address

I would like to speak with Council about my submission (week starting 22 May) Yes

If yes, please provide a contact number

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Any comments? You must focus your efforts on those farms that are most likely to cause problems.

Do you support an accelerated programme to determine minimum flows? Yes

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes

When do you think we Option 1: Establish an office in Queenstown

276

should open a new office in Queenstown?	in the 2017/2018 year
Any comments?	Its important that there is a presence in the Queenstown area given its significance to Otago.
How should we structure the rates for the Lower Waitaki River scheme?	Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	No
Climate change adaption (Clutha delta)	Yes
Any comments?	You need to spend more on Wilding Pines. This is a disaster waiting to happen. You have an opportunity to manage this problem now, considerable more assets need to be spent to ensure this does not become a national disaster. ACT RESPONSIBLY & ACT NOW.
Do you support the change to our Significance and Engagement policy for strategic assets?	No
Would you like to make comments or provide feedback on any of the other proposed changes?	Your \$100,000 budget for Wilding Pines is ridiculous. The community has informed you that they want action and then you spend and do nothing. You have an opportunity to ensure the high country is saved from this introduced pest and spending \$100,000 you are effectively doing nothing. Spend the money now and get on top of this.

Organisation (if applicable)

Address

I would like to speak with Council about my submission. Yes No
This would be in the week starting 22 May.

If yes, please provide a contact phone number

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Rural water quality

Do you support our water quality environmental risk-assessment programme? Yes No

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes No

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows? Yes No

Do you support funding the deemed water use permit transition work from the Water Management Reserve? Yes No

Do you support the following activities?

Lake snow increased workplan Yes No

Lake restoration scoping work Yes No

Wallaby control Yes No

Climate change adaption (Clutha delta) Yes No

Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No
Not Sure as I couldn't find the info on it - I think the brochure was a good idea and a meeting is also good.

Would you like to make comments or provide feedback on any of the other proposed changes?

CDEM - about people, I agree and some people have more money than others!
water quality - yes size of land should denote amount paid, would like to see that all monitored regularly.
Minimum flow - I'd like to know what gets dropped before making a decision.

Want to refer to the full draft Annual Plan for additional context when you're considering your submission?

What is this?? *Sorry, it's on back of this page*

Would you like to make comments or provide feedback on any of the other proposed changes?

Why do you charge higher rates to people with higher value houses? The value of your house doesn't reflect on your income necessarily or the use of Council services. It is not fair!

Address

I would like to speak with Council about my submission.
This would be in the week starting 22 May.

Yes No

If yes, please provide a contact phone number

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$26.89 per property).
Everyone in Otago pays the same amount – regardless of the value of their property.

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Rural water quality

Do you support our water quality environmental risk-assessment programme?

Yes No

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

Yes No

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows?

Yes No

Do you support funding the deemed water use permit transition work from the Water Management Reserve?

Yes No

Do you support the following activities?

Lake snow increased workplan Yes No

Lake restoration scoping work Yes No

Wallaby control Yes No

Climate change adaption (Clutha delta) Yes No

Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Yes No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Yes No

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?

Please add additional paper as required.

Want to refer to the full draft Annual Plan for additional context when you're considering your submission?

You'll find it at www.orc.govt.nz/annualplan. Hard copies available on request from our Dunedin and Alexandra offices (contact details below)

OTAGO REGIONAL COUNCIL
RECEIVED DUNEDIN
13 APR 2017
FILE No:
DIR TO:

Submissions close 12 May.

Name Mrs Mary C. BLYTH Organisation (if applicable) N.A.

Email:

Address

I would like to speak with Council about my submission: Yes No

This would be in the week starting 22 May.

If yes, please provide a contact phone number

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property.

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Rural water quality

Do you support our water quality environmental risk-assessment programme? Yes No

Do you support a risk based approach to dairy farm inspections for compliance monitoring? Yes No

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows? Yes No

Do you support funding the deemed water use permit transition work from the Water Management Reserve? Yes No

Do you support the following activities?

Lake snow increased workplan Yes No

Lake restoration scoping work Yes No

Wallaby control Yes No

Climate change adaption (Clutha delta) Yes No

Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?

Please add additional paper as required.

Want to refer to the full draft Annual Plan for additional context when you're considering your submission? You'll find it at www.orc.govt.nz/annualplan. Hard copies available on request from our Dunedin and Alexandra offices (contact details below)

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme? No

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Any comments? Rural water is impacted mainly by dairy farms. This should be the priority. Why should people who own 2 hectares, who are nowhere near water and do not farm at all, pay for what others are doing to be monitored. Do rural households pay for the monitoring of what the WWTP at Tahuna does or Ravensdown? Surely that monitoring is paid for equally. Farmers make a profit and surely farming responsibly is their job. Why should others pay? We don't get any of their profit do we.

Do you support an accelerated programme to determine minimum flows? Yes

Do you support funding

the deemed water use permit transition work for the Water Management Reserve?	Yes
How should we structure the rates for the Lower Waitaki River scheme?	Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	No
Climate change adaption (Clutha delta)	Yes
Do you support the change to our Significance and Engagement policy for strategic assets?	Yes

How do you think we should structure the rates for civil defence and emergency management? Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Any comments? Those of us with expensive properties should always pay more!

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Any comments? Water quality monitoring & stewardship is the ORCs responsibility & I wholeheartedly support you in this endeavour

Do you support an accelerated programme to determine minimum flows? Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve? Yes

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes

Do you support extending

the Wakatipu targeted rating area for public transport to include Jack's Point?	Yes
Any comments?	I wholeheartedly support the subsidising of public transport in the Wakatipu but it should also include water based not just land based options as there is no congestion on the water!! And Bus I support to Jacks Point only if it is viable
When do you think we should open a new office in Queenstown?	Option 1: Establish an office in Queenstown in the 2017/2018 year
How should we structure the rates for the Lower Waitaki River scheme?	Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

I would like to speak with Council about my submission (week starting 22 May)

No

How do you think we should structure the rates for civil defence and emergency management?

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

Yes

Any comments?

getting onto these targets sooner rather than later is so important.

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve?

Yes

Any comments?

Don't know

When do you think we should open a new office in Queenstown?

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Any comments?

Office in Queenstown more central than a

	Dunedin office.
How should we structure the rates for the Lower Waitaki River scheme?	Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	Yes
Climate change adaption (Clutha delta)	Yes
Any comments?	Real improvement in these areas has got to be by ORC enforcing nutrient 0% reaching lakes and waterways surely.
Any comments?	
Would you like to make comments or provide feedback on any of the other proposed changes?	<p>Base office in Lakes area, not Dunedin. NO to 4.25% rates increase, should be illegal for rate increases to in any way step above annual pension increases, these low rates express reality. Councils are getting more money in any case from increased resident numbers in Otago. Don't defer debt payment. Don't chlorinate our water supplies just because of some poor practices of north island councils & farmers caused water contamination in north island water supplies. Just use the money we already supply to do the jobs properly that staff is paid to do. Not add more infrastructure that encourages lazy practices & costs more. Stop increase in intensive farming & get the ones already doing it to stop expecting to get away with crapping up the planet.</p> <p>Look up Zeecol Ltd online and see how zero impact farming can be undertaken & enforced. Luggate creek for instance, is badly polluted now, it's water and bed has steadily deteriorated in quality since Lake MacKay Station has installed boom irrigation. With absentee landlords, who have you been working with on 'risk management' plans?</p>

No

How do you think we should structure the rates for civil defence and emergency management?

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Any comments?

Should be based on land ownership. If you own more you should pay more.

Spurious argument about "nature and value of your property isn't relevant".

It penalizes poorer people; greater proportion of what little money they have is spent on this compared with folk with higher levels of disposable income.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

Yes

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve?

Yes

Do you support the

increased subsidy of public transport in the Wakatipu Basin?	Yes
Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?	Yes
Any comments?	Visited Queenstown in February. Was utter chaos. Couldn't park anywhere so we just turned round and went back to Cromwell.
When do you think we should open a new office in Queenstown?	Option 1: Establish an office in Queenstown in the 2017/2018 year
How should we structure the rates for the Lower Waitaki River scheme?	Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

No

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Any comments?

Option 1 reflects the fairest approach.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

Yes

Any comments?

We urgently need to address water quality issues in the region and take action to improve water quality. Helping landholders to make changes to protect waterways from their activities through risk assessments and assessing the impact on waterways is a priority. Focusing effort where it is needed most through risk-based inspections is sensible.

Do you support an accelerated programme to determine minimum flows?

Yes

Any comments?

We support an accelerated programme for minimum flows to help protect environmental, recreational and cultural values.

Do you support the increased subsidy of

Yes

public transport in the
Wakatipu Basin?

Do you support extending
the Wakatipu targeted
rating area for public
transport to include Jack's
Point?

Yes

Any comments?

Strongly support this shift to create demand for public transport and a shift in transport behaviour away from reliance on private cars. Cost, reliability and accessibility are key determinants of public transport use, and this change is helping achieve this.

When do you think we
should open a new office
in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Lake snow increased
workplan

Yes

Lake restoration scoping
work

Yes

Wallaby control

Yes

Any comments?

The response to wilding tree control is inadequate, and we recommend a much stronger response and contribution towards their control. The longer we leave it the more costly and difficult controlling them is. This needs to be a major priority now.

This also applies to the response so far to lake snow which has been far too slow and inadequate for its seriousness. We support much more investment and action in understanding and controlling lake snow.

How do you think we should structure the rates for civil defence and emergency management? Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Any comments? This is still effects based, actually we need to also include some long term planning so that we do not allow farm practices that can affect the environment in such a massive way. We know there will be long term water quality reduction from increased irrigation and particularly from intensification of dairy farming, the regional council needs to limit the amount of land in our region that can support this type of use, rather than measuring the effects which is a step in the right direction but long term it becomes more about resource allocation within an environment to achieve any sense of sustainability. I would like the regional council to put some funding a feasibility study towards this goal with the view to reducing the requirement of testing

when once a problem has occurred or an environment is reduced. E.g. the stream at Lauder which has been adversely effected by dairy run off and effluent.

Do you support an accelerated programme to determine minimum flows?	Yes
Do you support funding the deemed water use permit transition work for the Water Management Reserve?	Yes
Any comments?	Yes and I would like to see some controls by regional council of the water quality run off from large scale residential developments due to massive earthmoving that is undertaken as current practice. Some sites have the land form so modified that it hardly resembles the original character of the land. In this regard I would also like to see some controls in the massive dust storms that occur from this type of development.
Do you support the increased subsidy of public transport in the Wakatipu Basin?	Yes
Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?	Yes
Any comments?	it would be more sensible to open an office in a more central area like Cromwell, so Wanaka people can access the office. Queenstown is very congested and I would want other populations to access this office. It will be difficult to access in Queenstown as the crown range already is a very slow trip. Cromwell would work as a hub for Alexandra, Wanaka and Queenstown. I suggest the cheaper rents in Cromwell would result in a more economical use of money.
How should we structure the rates for the Lower Waitaki River scheme?	Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate
Any comments?	I agree there are benefits to the region.
Lake snow increased	

workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	Yes
Climate change adaption (Clutha delta)	Yes
Do you support the change to our Significance and Engagement policy for strategic assets?	No
Would you like to make comments or provide feedback on any of the other proposed changes?	It would be good to have some provision for longer term planning such as a 50 year plan for the region. That way we could get things like transport and land use more co-ordinated. Currently we have 2 towns (Qtn and Wanaka) growing very quickly with very little structural planning from the region. How does the region connect? what will effect our environments the most over the next 30 - 40 years? I would like to see that we are funding to provide better long term vision for our region, its not just about climate change its about having a successful region that's interconnected.

No

How do you think we should structure the rates for civil defence and emergency management?

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Any comments?

the second option is more progressive

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

Yes

Any comments?

this is a serious problem and I'm glad that the ORC is increasing compliance monitoring

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve?

Yes

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Yes

Do you support extending

the Wakatipu targeted rating area for public transport to include Jack's Point?	Yes
When do you think we should open a new office in Queenstown?	Option 2: Delay proposal until the next Long Term Plan process (2018/2019)
How should we structure the rates for the Lower Waitaki River scheme?	Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	Yes

How do you think we should structure the rates for civil defence and emergency management? Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Any comments? One warning and then an eye-watering fine for non-compliance.

Do you support an accelerated programme to determine minimum flows? Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve? Yes

Any comments? Permits granted at times of low population density all need to be reviewed periodically. Build in a time frame for the next renewal - say 10 years.

Do you support the increased subsidy of public transport in the Wakatipu Basin?	Yes
Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?	Yes
Any comments?	Good bus services are about far more than reducing inner-city congestion. They encourage people to get out and make friends - vital with ageing populations.
When do you think we should open a new office in Queenstown?	Option 1: Establish an office in Queenstown in the 2017/2018 year
Any comments?	Don't waste too much money on unnecessary features.
How should we structure the rates for the Lower Waitaki River scheme?	Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	Yes
Climate change adaption (Clutha delta)	Yes
Do you support the change to our Significance and Engagement policy for strategic assets?	Yes
Would you like to make comments or provide feedback on any of the other proposed changes?	The main function of Council is to look after the needs of the people so flood and slip control are priority. Water quality next - free from visible pollutants and harmful organisms which prevent bathing. Would be lovely if one could drink river water occasionally - too much e-coli around hill country huts never mind downstream.

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme? Yes

Any comments? I accept areas of greater should be monitored closely and more frequently however along with monitoring practice help is of more benefit and is received with more compliance than impractical rule making and heavy handedness

Do you support an accelerated programme to determine minimum flows? Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve? Yes

Any comments? the quicker problems can be assessed and practical solutions which are acceptable by all parties involved are decided on the quicker we can move on and see the benefit to all and water users have clear guide lines to work within

Do you support the

increased subsidy of public transport in the Wakatipu Basin?	Yes
Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?	Yes
Any comments?	Although not residing in the Wakatapu Basin i have witnessed massive increases in transport congestion. Improving public transport where it becomes practicle, avordable, and a prefeered form of transport is beneficial to all visiting or residing in the area
When do you think we should open a new office in Queenstown?	Option 1: Establish an office in Queenstown in the 2017/2018 year
Any comments?	No reason to wait
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallahy control	Yes
Climate change adaption (Clutha delta)	Yes
Do you support the change to our Significance and Engagement policy for strategic assets?	Yes

The Rotary Club of Dunedin Inc.

The Chief Executive

Otago Regional Council

Dunedin.

Dear Sir,

West Harbour Recreation Trail Project:

As I am sure you and members of your Board will be aware, members of the Rotary Club of Dunedin embarked on a project with the aim of enhancing the edges of the Cycle/Walking Trail between the Dunedin Boat Harbour at the southern end and Maia at its northern end.

The project was commenced in January 2013 with the commencement of planning and budgeting. Planning approval was received from the DCC in October, 2013. The DCC has agreed to accept maintenance responsibility for the works as each stage is completed.

The budget came to approx. \$200,000 for all the products, trees and shrubs, signage and exercise equipment that is included in the project. This sum included the club's contribution of some \$12,000.

The design work is being carried out by Mr Mick Field--Landscape Architect--who did the original concept for the City Council, but who now works as a volunteer as part of the Rotary effort.

The labour for the project is largely by Rotarian volunteers, their friends and families and community groups coordinated by Rotary. To date it is estimated in excess of 800 hours of volunteer work has gone into development work, refinement of design, negotiations with the DCC staff and the physical work to beautify the edges of the Trail.

The project has attracted significant funding from the William Sherriff Charitable Trust, a grant from the Chalmers Community Board, Guardian Perpetual Trust Ltd and financial support from Ravensdown Fertiliser Co. The Otago Community Trust is also a major financial supporter and is covering the majority of the cost of the thirteen items of exercise equipment, three of which are already installed.

There is however, just one major funding requirement and that is for the double burner BBQ of a type designed for public use in a picnic environment and this is the reason for this letter to the ORC. This letter is a formal request for the funds necessary to finance the purchase of the stainless steel gas BBQ. The the model selected is BWB-G-2/2GBD and the cost is quoted at \$12,818, inc of GST.

The concrete pad and housing shelter for the BBQ is to be constructed by J G Gardner & Co at no cost to the project.

To you Sir and to ORC Board Members, the Project Group of the Rotary Club of Dunedin formally requests your assistance to fund this vital and socially interesting item within the project. We will be pleased to meet with you to discuss this if required.

I thank you in anticipation.

Yours faithfully,

Bill Thompson

24/3/2017

Fundraising Manager for the Project.

Mr Thompson would like to be heard.

I would like to speak with Council about my submission (week starting 22 May)

No

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme?

Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring?

Yes

Do you support an accelerated programme to determine minimum flows?

Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve?

Yes

Do you support the increased subsidy of public transport in the Wakatipu Basin?

Yes

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Yes

Any comments?

Direct bus services should be considered from suburbs such as Lake Hayes Estate/Shotover

Country and Jacks Point at key times (rush hours) rather than buses all going through the Frankton hub. This would encourage more patrons to use this service.

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Any comments?

It is important that as Queenstown's growth soars, that ORC is represented physically in Queenstown, especially so they can work together with QLDC and other key stakeholders within the district. Not experiencing a districts issues first hand can hinder progress.

How should we structure the rates for the Lower Waitaki River scheme?

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Lake snow increased workplan

Yes

Lake restoration scoping work

Yes

Wallaby control

Yes

Climate change adaption (Clutha delta)

Yes

Any comments?	One thing about paying a wee bit is the general community has real skin in the game.
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	Yes
Climate change adaption (Clutha delta)	Yes
Any comments?	Work hard on the Wallaby problem to reverse the growth in numbers and range of this pest.
Do you support the change to our Significance and Engagement policy for strategic assets?	Yes
Would you like to make comments or provide feedback on any of the other proposed changes?	

I do not believe the policies relating to South Dunedin in relation to climate change are realistic.
 Having buildings a metre or so off the ground is no help if the street is flooded and the relocatable idea would work except how many building could that apply to in say 25 years.

Building will stop as will maintenance but people will still live there regardless of what others want or think so a engineering solution would be a better option until the situation is impossible. Is your policy going to extent to Portobello Rd, Tahuna STW,

I beat it will not as money will be provided to lift Portsmouth Drive and Portobello rd and the STW would have dewatering spears installed but every one else would be on their own.

If sea levels do lift say 600mm then troubles will also be apparent in Mosgiel in heavy rains, Marne st, Tomahawk, Taieri Mouth other reclaimed areas of Dunedin as a roll back in one location would ensure the view of other locations.

I think more comprehensive thought is required about more than cause and effect to immediate climate threatened locations.
Thanks for in advance for reading.

 Draft Annual Plan 2017/18

Name Jeannie Galavazi

E-mail

Address

I would like to speak with Council about my submission (week starting 22 May) No

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Any comments? In light of MFE's proposed new Freshwater Standards I think every effort possible should be made to preserve our regions 'excellent' water quality - rather than let it degrade like the new standards would allow. For this reason as much monitoring as possible should be done on at risk dairy farms.

Do you support an accelerated programme to determine minimum flows? Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve? Yes

Do you support the increased subsidy of public transport in the Yes

Wakatipu Basin?

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?

Yes

Any comments?

I think that more than \$600,000 should be allocated as traffic, congestion and the associated impact on carparking is at critical levels, affecting our quality of life in Queenstown, and the tourist experience. For public transport to be viable for a geographically spread out district it needs to be very cheap and frequent. I support public transport to Jacks point but believe there should be a trial first to determine the requirements.

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Any comments?

Queenstown is facing unprecedented and unrelenting growth. More monitoring of consents, waterways and the impacts of this development needs to happen, as soon as possible.

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Lake snow increased workplan

Yes

Lake restoration scoping work

Yes

Wallaby control

Yes

Climate change adaption (Clutha delta)

Yes

Any comments?

I support the proposed changes for improving water quality and definitely support any projects that address climate change adaption.

Any comments?

Unsure of how this affects me.

Would you like to make comments or provide feedback on any of the other proposed changes?

Please continue to support the wilding conifer problem. This is a major threat to our ecosystems and we should be doing everything possible before the problem gets too big.

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Any comments? Education and assessments now may save time and money on enforcement actions later. I think this should only be in the budget for the next three years and after that another program organised similar to a risk-based approach in dairying.

Do you support an accelerated programme to determine minimum flows? No

Do you support funding the deemed water use permit transition work for the Water Management Reserve? No

Any comments? I'm unsure how much of the science has been completed on catchments that haven't commenced the process but these processes

350

shouldn't be rushed to meet a deadline. The hard catchments are still to be done and I don't think the process is working too well given what is/has happened on the Lindis catchment.

Do you support the increased subsidy of public transport in the Wakatipu Basin?	Yes
Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point?	Yes
Any comments?	I think this is a good initiative, the current system isn't working so give it a go.
When do you think we should open a new office in Queenstown?	Option 2: Delay proposal until the next Long Term Plan process (2018/2019)
Any comments?	Is it really necessary or just a want by a few people? Most processes can be done online/phone etc and its only 30mins from Cromwell for staff to travel to the area. Perhaps a shared service with QLDC?
How should we structure the rates for the Lower Waitaki River scheme?	Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	Yes
Climate change adaption (Clutha delta)	Yes
Do you support the change to our Significance and Engagement policy for strategic assets?	Yes

You can [edit this submission](#) and [view all your submissions](#) easily.

I would like to speak with Council about my submission: Yes No

This would be in the week starting 22 May.

If yes, please provide a contact phone number

How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property).
Everyone in Otago pays the same amount – regardless of the value of their property.

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Rural water quality

Do you support our water quality environmental risk-assessment programme? Yes No

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes No

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows? Yes No

Do you support funding the deemed water use permit transition work from the Water Management Reserve? Yes No

Do you support the following activities?

Lake snow increased workplan	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Lake restoration scoping work	<input type="checkbox"/> Yes	<input type="checkbox"/> No
Wallaby control	<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
Climate change adaption (Clutha delta)	<input type="checkbox"/> Yes	<input type="checkbox"/> No

Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?

Transport – Why can't this be a uniform targeted rate – unfair that it goes on the CV.?

Flood Protection – Creeks should be cleaned out more regularly. The Palmerston Creek is disgusting – hasn't been cleaned out in years – is full of weeds, flooded at weekend, & has flooded badly in the past.

Please add additional paper as required.

How do you think we should structure the rates for civil defence and emergency management? Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Any comments? A flat tax rate unfairly puts the burden on poorer members of our community and equity & fairness should be at the heart of ORC decision making - if you are wealthier you should pay more.

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Do you support an accelerated programme to determine minimum flows? Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve? Yes

How do you think we should structure the rates for civil defence and emergency management? Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Do you support our water quality environmental risk-assessment programme? Yes

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes

Do you support an accelerated programme to determine minimum flows? Yes

Do you support funding the deemed water use permit transition work for the Water Management Reserve? Yes

Do you support the increased subsidy of public transport in the Wakatipu Basin? No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? No

Any comments?	<p>1. Costs should fall where the benefit arises and not be further subsidised by ratepayers.</p> <p>2. I supported initial subsidisation of the buses to establish a market presence but believe the user should now pay .</p> <p>3. I do not support a capital rating based cost for public transport in the Wakatipu. There is no relationship between access to bus service/benefits and the value of property. If a fee must exist it should be a minimum flat rate across all rateable properties but the majority of the cost should be paid directly by the user.</p> <p>4. I have to budget to pay for the annual transport costs for my family and I and strongly disagree with funding the subsidisation of public transport for others going forward.</p> <p>5. The route for the said service does not pass by our property and unlike a community service such as library services, this proposal is not an a social cost I am prepared to pay.</p>
When do you think we should open a new office in Queenstown?	Option 2: Delay proposal until the next Long Term Plan process (2018/2019)
Any comments?	There is no need to add further cost to the ORC operation. Regular contact with ORC councillors and perhaps bi/monthly scheduled meeting opportunities between some ORC staff in Queenstown/Wanaka utilising QLDC facilities will suffice. Less is more.
How should we structure the rates for the Lower Waitaki River scheme?	Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)
Lake snow increased workplan	Yes
Lake restoration scoping work	Yes
Wallaby control	Yes
Climate change adaption (Clutha delta)	Yes
Do you support the change to our Significance and Engagement policy for strategic assets?	Yes

Would you like to make comments or provide feedback on any of the other proposed changes?

ORC functions should be lean and targeted.
Regular open dialogue with councillors/staff throughout the region should be encouraged.
Online surveying is cost effective for feedback.

- Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

When do you think we should open a new office in Queenstown?

- Option 1: Establish an office in Queenstown in the 2017/2018 year
- Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Rural water quality

- Do you support our water quality environmental risk-assessment programme? Yes No
- Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes No

How should we structure the rates for the Lower Waitaki River scheme?

- Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate
- Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Minimum flows and deemed water use permit replacement

- Do you support an accelerated programme to determine minimum flows? Yes No
- Do you support funding the deemed water use permit transition work from the Water Management Reserve? Yes No

Do you support the following activities?

- Lake snow increased workplan Yes No
- Lake restoration scoping work Yes No
- Wallaby control Yes No
- Climate change adaption (Clutha delta) Yes No

Public transport in the Wakatipu Basin

- Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No
- Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

Do you support the change to our Significance and Engagement policy for strategic assets?

- Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?

Please add additional paper as required.

Re Rural Water Quality - it seems very expensive & will in some/many cases be a waste of resources to assess every rural property. I think those visits should be targeted/prioritised. So if there is a H2O quality issue, where is it coming from?

Please add additional paper as required.

What about Lake Waihola in your lake restoration Plan, it which has become an over sized Effluent Pond under your watch? I used to Fish swim and boat there, now I cant even take my Grandchildren there or my dog. This is all due to mismanagement of Land use Dairy and intensive Farming, draining surrounding Swamp. Please for The Sake of the next Generation Stop the Slaughter of the Land!

Please add additional paper as required.

Your feedback please...

Tell us whether you support the proposed changes to our work programme for 2017/2018.

Use this form to share your feedback or submit online at:
www.orc.govt.nz/annualplan
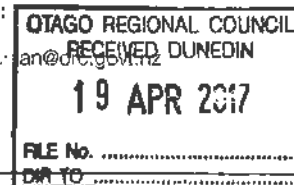

You can also write or email your submission to:

 Otago Regional Council
Freepost 497
Private Bag 1954
Dunedin 9054

 annual.plan@orc.govt.nz

Submissions close 12 May.

Name GRANT NORBURY Organisation (if applicable)
Email
Address

I would like to speak with Council about my submission: Yes No

If yes, please provide a contact phone number

How do you think we should structure the rates for civil defence and emergency management?

- Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount - regardless of the value of their property.
- Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

When do you think we should open a new office in Queenstown?

- Option 1: Establish an office in Queenstown in the 2017/2018 year
- Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

Rural water quality

- Do you support our water quality environmental risk-assessment programme? Yes No
- Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes No

How should we structure the rates for the Lower Waitaki River scheme?

- Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate
- Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Minimum flows and deemed water use permit replacement

- Do you support an accelerated programme to determine minimum flows? Yes No
- Do you support funding the deemed water use permit transition work from the Water Management Reserve? Yes No

Do you support the following activities?

- Lake snow increased workplan Yes No
- Lake restoration scoping work Yes No
- Wetland control Yes No
- Climate change adaption (Clutha delta) Yes No

Public transport in the Wakatipu Basin

- Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No
- Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

Do you support the change to our Significance and Engagement policy for strategic assets?

- Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?

*But curious why 25% general rates cover this. Why not 100% to rural landowners
Think so, but it's not clear what this means
not from general rates but from affected landholders*

Please add additional paper as required.

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No

Would you like to make comments or provide feedback on any of the other proposed changes? Why the need to spend \$14,000,000 on a building, any amount of buildings to rent, what about Invermay. We have Lake Dunstan in urgent need of Lagorasiphon weed control \$\$\$, or we will lose it, spraying has a proven record of results. \$1,000,000 for Budget would clean it up, "use it or lose it"
Please add additional paper as required.

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?

The increase in the ORC rating area is disproportionate, especially on top of proposed ORC rate increases. Similarly, year-on-year increases do not represent effective management or a search for efficiency gains. The reserves look to be excessive to me, with significant scope for much better management of assets.

Please add additional paper as required.

Would you like to make comments or provide feedback on any of the other proposed changes?

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Do you support the following activities?

Lake snow increased workplan Yes No

Lake restoration scoping work Yes No

Wallaby control Yes No

Climate change adaption (Clutha delta) Yes No

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No

Please add additional paper as required.

Organisation (if applicable): _____
Address: _____

I would like to speak with Council about my submission: Yes No
This would be in the week starting 22 May.

If yes, please provide a contact phone number

* How do you think we should structure the rates for civil defence and emergency management?

Option 1: Uniform targeted rate (\$25.89 per property). Everyone in Otago pays the same amount – regardless of the value of their property.

Option 2: 50% uniform targeted rate and 50% general rate. Half of the cost is in general rates, and half is an equal amount paid by everyone.

Rural water quality

Do you support our water quality environmental risk-assessment programme? Yes No

Do you support a risk-based approach to dairy farm inspections for compliance monitoring? Yes No

Minimum flows and deemed water use permit replacement

Do you support an accelerated programme to determine minimum flows? Yes No

Do you support funding the deemed water use permit transition work from the Water Management Reserve? Yes No

Public transport in the Wakatipu Basin

Do you support the increased subsidy of public transport in the Wakatipu Basin? Yes No

Do you support extending the Wakatipu targeted rating area for public transport to include Jack's Point? Yes No

When do you think we should open a new office in Queenstown?

Option 1: Establish an office in Queenstown in the 2017/2018 year

Option 2: Delay proposal until the next Long Term Plan process (2018/2019)

How should we structure the rates for the Lower Waitaki River scheme?

Option 1: Change the way the scheme is paid for, so that 10% of the scheme's costs are paid for as part of general rates, and 90% by the Lower Waitaki River scheme targeted rate

Option 2: Leave all costs as 100% Lower Waitaki River scheme targeted rate (status quo)

Do you support the following activities?

Lake snow increased workplan	Yes	No
Lake restoration scoping work	Yes	No
Wallaby control	Yes	No
Climate change adaption (Clutha delta)	Yes	No

Do you support the change to our Significance and Engagement policy for strategic assets?

Yes No

Would you like to make comments or provide feedback on any of the other proposed changes?

* Every rateable property should count as 1 unit and every dwelling unit (house/flat/apartment) on that property counts as further rating units. This would be a more equitable per person way of paying for civil defence as outlined at the bottom of page 6 of this document.

Please add additional paper as required.
