

Fish and Flow data

How can ORC help?

- We've collated all known fish and flow information into a portal
- It's now available on our website, on our home page just click on

Fish&FlowInfo

Fish and Flow Portal

Contains:

- Location of water takes
- Land parcels
- Flow information
- Location of water races
- Aquatic info from NZ Fresh Water database

<http://www.orc.govt.nz/fishandflowportal/>

ORC information

- Telemetered flow sites
- Manual flow sites
- Historic flow sites
- One-off gauging
- Rainfall data
- Water temperature data

Freshwater fish

Contains:

- Location of nearest fish record
- What species are present
 - threatened status
 - abundance
- Date of the survey, agency that conducted the survey

Additional information

- May be required
- Lack of fish info – seek advice from iwi, Fish and Game, DoC, and Otago University
- AEE – has there been a residual flow consideration?
- Surface flow information
