

4B Schedule To Use and Maintain a Water Race

(For Office Use Only)

File No: _____

This schedule is to be used to replace any rights to use and maintain water races.

Rights to Use and Maintain a Water Race

Under the Resource Management Act 1991, rights to use and maintain a water race are not able to be replaced with a permit. However, if the water race is not contained within your own property, you may wish to make application for a Section 417 certificate which can then be registered, similar to an easement, against the title of all lands involved; otherwise the right to use and maintain the race will expire on 1 October 2021. There is an application deposit fee of \$200 incl GST for this.

APPLICATION FOR SECTION 417 CERTIFICATE

Full Name(s): _____

Address: _____

Daytime Telephone No: _____

Email Address: _____

Water Permit No. _____ for which Section 417 Certificate is being applied for, or
