- Do you:
- Support
 - Neutral
 - Oppose

- Do you:
- Wish to be heard
 - Not wish to be heard
- in support of my/our submission.

If others make a similar submission, I/we will consider presenting a joint case with them at a hearing.

- Yes
- No

The specific parts of the applications that my submission relates to are: *(Give details)*

My/Our submission is *(the reasons for your views, use a separate sheet if necessary)*

Due to the short notice period over the Xmas break and unclear notifications we have not had the opportunity to fully review and prepare our submission and would like to make further submissions in due course

We note the following points: We appreciate the integrated catchment approach of the two groups, we acknowledge the long history of farming in the catchment, we disagree that economic justification for the handing down of farms to future generations is not, of itself, sufficient justification to take priority over instream values and long term sustainability.

I/We seek the following decision from the consent authority *(give precise details, including the general nature of any conditions sought)*

Reduction in water intensive farming due to increasing climate change effects, and cumulative impacts of farming intensification. We have observed a massive increase in water intensive farming practices in our ten years we have been associated with the Tarras/Lindis area. There appears to be little if any consideration of reducing dependency on the fresh water in this catchment, that is owned by everyone, and not a property right for a limited group.

Date submissions close: 5pm on Monday 15th January 2018

A copy of your submission must be served on the applicant as soon as reasonably practicable after the service of your submission on the Otago Regional Council
