

Otago Regional Council
Dunstan Constituency
Electing 3 Regional Councillors

Richard BOWMAN

My principal place of residence is in the Dunstan Constituency area.

I am standing for ORC because I want to see our water, land, air and coastal resources used in sensible and sustainable ways. I am recently retired after 24 years as Biosecurity Manager for

Environment Southland, dealing with major environmental issues, including wilding conifers, rabbits, wallabies, freshwater pests and biodiversity threats. I currently chair the NZ Wilding Conifers Group. I hold BSc Hons (Geology) and MBA degrees from Otago University and combine my extensive work experience and knowledge with a lifelong love of the area. I aim to ensure ORC meets both its legal obligations and communities' expectations in managing the region's natural and physical resources. I will promote better collaboration between ORC and the communities it serves through effective working partnerships and I look forward to building ORC's capability and capacity in science understanding and community engagement.
