	NEURAL/OPPOSE		
Ann-Louise Stokes	Oppose	No	Opposes as not acceptable practice, lakes and rivers
			should be pristine.
Adam Hall	Oppose	No	Opposed all aspects of the application due to the
			offensive nature of the discharge and the potential
			adverse effects. Relief sought is that alternatives to
			discharing are further considered.
Alan Richard Flett	Oppose	Yes	Queenstown Lakes is main tourist desitination,
			Country voted for clean water - QLDC should be
			treated as any farmer and prosecuted
Alastair Hamilton	Oppose	Yes	Opposed to broad nature of application and no other
			NZ entity would have ablility to do this
Alexia Joy Clarke and Albert	Oppose	No	The discharge to Wakatipu, Wanaka and Hawea not
Errol David Clark			to be permitted - upgrade of infrastructure to be a
			priority
Andrea and Gaeme Oxley	Oppose	No	Opposed all aspects of the application due to the
•			offensive nature of the discharge. Relief sought is that
			the discharge permit is declined and the applicant is
			required to adhere to a scheduled plan for upgrades.
Andrew Conyngham Burton	Oppose	Yes	Strongly opposes QLDC should install fit for purpose
, 0			equipment and have suitable backup in the event of a
			primary failure
Andrew Howard Dale	Oppose	No	Should not allow discharge of untreated waste under
Woods			any circumstances - QLDC should assess points of
			weakness in systems. QLD is an area of oustanding
			natural beauty QLDC have duty to ensure natural
			resources are maintained and protected
			'
Andrew Millar	Oppose	No	Decline application in entirity
Andrew Roger Barnett	Oppose	No	QLDC need to look at sustainable ways to stop
			untreated wastewater entering natural environment
Angela Walker	Oppose	No	Should not allow discharge of untreated waste under
			any circumstances - QLDC should assess points of
			weakness in systems. QLD is an area of oustanding
			natural beauty QLDC have duty to ensure natural
			resources are maintained and protected
<u> </u>		1	
Anita Jansen	Oppose	No	Opposes due to pollution of waterways, impact on
. 5 11		<del> </del>	regions enviornment.
Ann Dodds	Oppose	No	Opposes due to the impact on the environment and
			impact on tourism
Anna Ryder	Oppose	No	Opposed all aspects of the application due to the
			offensive nature of the discharge.

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEARD	SUBMISSION
Anna Scott Walker	Oppose	No	Opposes due to the impact on the environment and
Anna Cinana and and	0	No	impact on tourism
Anna Simmonds and	Oppose	No	Opposed all aspects of the application on the basis
Matthew Evrard			that the application is inconistent with the provisons
			of the National Policy Statement for Freshwater
			Management 2014. Various objectives and policies
			relating to water quality are referenced. Relief sought
			is that the dishcarge permit is declined and that
			alternatives are considered further.
Anna Van Riel	Oppose	Not indicated	Opposed all aspects of the application due to the
			offensive nature of the discharge.
Anne R McNeill	Oppose	No	Opposes due to the impact on the environment
Anthony Olsen	Oppose	Yes	Opposes as uncertainty around the volume and
			frequency the impact on the environment is unknown
			and must be monitored
Aotearoa Water Action	Oppose	Yes	Opposes because of significant values of receiving
Incorporated			water bodies, unlimited discharge volumes and
			frequency, consent term and impact on environment
			and health risk
Barry Wayne and Glenys Elaine	Oppose	Yes	Strongly oppose the discharge of waste water into water
Morgan			ways.
Belinda Egden	Oppose	No	Opposes as not consitant with NPSFM - riskes to the
			enviornment and health concerns
Beverley Joyce Thomson	Oppose	No	Opposes discharge of wastwater is unhealthy for
			people and native biodiversity - term should be no
			longer than 3 years
Bill and Kirsty Sharpe	Oppose	No	Opposes due to impact on environment and toursim in the area
Brad Gould	Onnoco	Yes	Opposed all aspects of the application due to the
Brad Gould	Oppose	res	
			potential adverse effects on the sensitive receiving
			environments. Relief sought is that the discharge
Dridget Drigt on bobolf of	Onness	Voc	permit is declined.
Bridget Burt on behalf of Burt Family	Oppose	Yes	Opposes due to impact on envorinment and health conserns - concerned about 35 year term
	Onnoco	No	Oppoesd to 35 year term and the impact on the
Bronwyn Bain	Oppose	INO	
Bruce Farmer	Onnoco	Yes	environment and tourism  Opposed to impact on environment and inadequate

Craig Laing	Oppose	No	Opposed all aspects of the application. Considered that if the discharge permit was granted this would be a double standard in comparision to how agricultural discharges are treated.
Damian Foster	Oppose	No	Opposed all aspects of the application stating that discharges of wastewater to freshwater environments must be avoided in any circumstances.
Darren Arthur Smith	Oppose	Yes	Opposed all aspects of the application due to the potential adverse effects on the environment and the lack of assessment provided by the applicant. Relief sought is either further evidence on the potential effects is provided or the discharge permit is declined.
Darryll Rogers	Oppose	Yes	Opposes due to the impact on the environment and water quality
David N Mitchell	Oppose	No	Opposes due to the offensive nature of the discharge and the lack of alternatives considered.
David Pearse	Oppose	Yes	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Application does not protect cultural values. If granted consent should contain requirements for infrastructure upgrades and be granted for a term not exceeding 10 years. Stringinent monitoring and review provisions must be included. Concerned that adequate monitoring and enforcement will not be adhered to.
David Shepherd	Oppose	Yes	Opposed parts of the application, in partiular the propsoed term of 35 years. Discussed aspects of the application while providing consideration against policies and objectives of the Regional Plan Water for Otago. Relief sought is that should the discharge permit be granted, it is subject to a number of conditions including those proposed by the applicant and term of no more than 10 years.
Deborah Richards	Oppose	No	Opposes due to impact on the environment and tourism
Dennis Behan	Oppose	No	Opposed as frequent users of the river
Dennis Louis and Olwyn Ysabel Pezaro	Oppose	No	Opposes due to impact on the envorinment and health concerns - cconcerned about 35 year term
Department of Conservation (Nardia Yozin)	Oppose	Yes	Opposed due to impact on environment and that conditions do not adequately address system capacity, how QLDC will reduce overflow occurrences and the duration of the consent
Donald McKenzie	Oppose	No	Opposed all aspects of the application stating that discharges of wastewater to freshwater environments must be avoided in any circumstances.
Duncan James Campbell	Oppose	No	Concerns regarding failure of infrastructure and impact on the enviornment

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEA	RD SUBMISSION
Elizabeth Rimmer	Oppose	Not indicated	Opposed all aspects of the application due to the offensive nature of the discharge and the potential adverse effects. Relief sought is that the discharge permit be declined.
Emberly Wetherall	Oppose	No	Opposes impact on the environment and tourism QLDC should upgrade infrastructure
Emily Robertson	Oppose	No	Opposes impact on the environment and tourism QLDC should upgrade infrastructure
Ettrick Fruit Growers Association	Oppose	Yes	Opposes due to impact Growers envorinment and health concerns - concerned about 35 year term
Federated Farmers of New Zealand (Otago Province) C Ryder	Oppose	Yes	Opposed due to environmental impact - infrastructure should be improved. Opposes 35 year term
Fiona Clements Chair of Sustainable Dunedin City	Oppose	Yes	Opposed as does not meet NPSFMO standards and against 35 year term
Fiona Mangos	Oppose	No	Opposed due to impact on the environment and tourism
Forest and Bird (Sue Maturin)	Oppose	Yes	Opposed to impact on environment particularily fish habitat. Opposed to 35 year term.
Frankton Community Association	Oppose	Yes	Opposed due to impact on environment and that conditions do not adequately address system
Fraser Nicholas Hocks ( President Wakatipu Anglers Club)	Oppose	Yes	Opposes due to impact on the environment and inadequate infrastrucure
Friends of Bullock Creek Incorporated	Oppose	Yes	Opposes due to impact on environment proposal will compromise water quality in Bullock Creek
Friends of Lake Hayes	Support	No	Supports the intent of the consent and conditions
Gary Anderson	Oppose	No	Concerned about the water quality and biodiversity and ecosystems - the omission of siesmic and wild fires from application - inadequate infrastructure. 10 year term sufficient
Gavin Michael Dann	Oppose	No	Consent should be for no longer than a 5 year term
Geoff Marks	Oppose	No	Opposed all aspects of the application due to the potential adverse effects on the environment and the lack of assessment provided by the applicant. Relief sought is either further evidence on the potential effects is provided or the discharge permit is declined.
Geoffrey James and Margaret Anne Pye	Oppose	No	Opposed all aspects of the application due to the adverse effects on water quality, in particular nutrient loading on the Lakes and the associated human health risk and impact on socio-economic values.  Relief sought is that the discharge permit is declined.
Gerrard Eckhoff	Oppose	Yes	Opposes the discharge of raw wastewater and impact on the environment and the impact on downstream users
Gilbert Van Reenen	Oppose	Yes	Opposes term of consent and the impact on the environment

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEARD	SUBMISSION
Karen L Eadie	Oppose	No	Opposes due to impact on the environment and tourism
Kāti Huirapa Rūnaka ki Puketeraki and Te Rūnanga o Ōtākou (Kāi Tahu) (Tania Richardson)	Oppose	Yes	Opposes due to the impact on the CluthaMata Au catchment environment - term of consent should be 10 years - Ka Runaka via Aukaha are notified of uplanned wastewater discharges - pump stationss to be alarmed within 2 years - unplanned discharges should be reduced by 50% within the next 5 years
Kelly Graham	Oppose	Yes	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Application does not protect cultural values. If granted consent should contain requirements for infrastructure upgrades and be granted for a term not exceeding 10 years. Stringinent monitoring and review provisions must be included. Concerned that adequate monitoring and enforcement will not be adhered to.
Kelvin Penninsula Community Association	Oppose	Yes	Does not meet NPSFM requirments, fails to meet Water Conservation (Kawarau) Order 1997
(Cath Gilmour)			requirements - enviornmental impact
Ken Saxby and Carol Saxby	Oppose	No	Opposed to term requests 5 year term during that period the QLDC should ensure wastewater system is fit for purpose
Kenneth David Fraser	Oppose	No	Opposes whole application concerned about the impact on tourism and the environment
Kim Badger	Oppose	No	Opposed to the impact on the enviornment and too many tourists - should tax tourists
Kim Baker	Oppose	No	Concerns regarding failure of infrastructure and impact on the enviornment
Kim Coll	Oppose	No	Concerns regarding failure of infrastructure and impact on the enviornment
Laura and Jan Solbak	Oppose	No	Opposes due to impact on the enviornment concerned about failure of infrastruture
Lauren Prebble	Oppose	Yes	Does not meet NPSFM standards
Laureys Marlene	Oppose	Not indicated	Opposes the application
Lesley Margaret Anderson	Oppose	Yes	Feels the current wastewater system is ill designed and needs upgrading before further expanision of the area occurs
Linda Julie Danen	Oppose	No	Opposes - inadequate infrastructure - annual monitioring report should be made available to the public
Loris Eileen King	Oppose	No	Opposes all due to impact on environment
Lynne Ann Campbell	Oppose	No	Opposed due to the impact on the environment
Lynne Stewart	Oppose	No	Opposes for reasons of ecological and human health
Margaret and John Wilkinson	Oppose	No	Totally opposes any and all untreated wastewater inot any fresh water environment
Margaret Prescott and Steven Prescott	Oppose	No	Opposed to discharge of wastweater into fresh water environments

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEARD	SUBMISSION
Marie-Claire Henderson	Oppose	No	Concerned about the impact on the environment, ecosystems, public health and the recreational value of freshwater environments. Design of system should be reconsidered.
Marina Silva	Oppose	No	Oppose application in its entirety. Concerns with lack of infrastructure capacity.
Mark Sinclair	Oppose	Yes	Oppose application in its entirety. Applicant has not assessed alternatives adequately. Potential economic impacts as could threaten tourism. Relief sought is that the application is declined in its entirety and the
Melanie Mueller	Oppose	Yes	Inconsistant with NPSFM and should have a much shorter term
Michael and Susie Ross	Oppose	Yes	Applicant supports emergency discharges to land rather than to water. Concerns with lack of infrastructure capacity. Relief sought is that the application be declined and the applicant undertake contingency planning.
Michael Clark	Oppose	No	Opposed the proposed duration sought due to the long term adverse effects. Relief sought is that should the consent be granted, the term is no longer than 10 years.
Michael Farrier	Oppose	Yes	Concerned with human health effects and effects on surface water bodies. Noted infrastructure is not adequate. Opposes term and suggests a maximum period of 5 years with review.
Michael John Bruce Arthur	Oppose	No	Opposed all aspects of the application stating that discharges of wastewater to freshwater environments must be avoided in any circumstances. Relief sought is that the discharge permit is declined.
Michael Laws	Oppose	Yes	Oppose application in its entirety. Economic, environmental and leadership values will be severely compromised. Consent should not be granted.
Michael Robertson	Oppose	No	Opposes due impact on the environment - QLDC's wastewater systems should be monitored and maiintained to a high standard also concerned about the impact on tourism
Mike Hartley	Oppose	No	Oppose application in its entirety. Applicant has not assessed alternatives adequately. Potential economic impacts as could threaten tourism. Relief sought is that the application is declined in its entirety and the applicant reconsiders options.
Miranda Susan Spray	Support	Not indicated	Concerned with the nature and scope of the application.

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEARD	SUBMISSION
Miriam Houliston	Oppose	Yes	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Application does not protect cultural values. If granted consent should contain requirements for infrastructure upgrades and be granted for a term not exceeding 10 years. Stringinent monitoring and review provisions must be included. Concerned that adequate monitoring and enforcement will not be adhered to.
Morgan Richard Williams	Oppose	No	Unfair that farmers cannot discharge but an urban town can and not be penalised
Mylrea Elizabeth Bell	Oppose	No	Oppose application in its entirety. Applicant has not assessed alternatives adequately. Potential economic impacts as could threaten tourism. Relief sought is that the application is declined in its entirety and the applicant reconsiders options.
Nancy Latham	Oppose	Yes	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Relief sought is that the dishcarge permit is declined.
Natalie Astin	Oppose	No	Opposed consent term, and noted concerns regarding water quality, environmental impacts, cultural values and human health. Stated that proposal is not consistent with Lake Wanaka Preservation Act 1973. Relief sought is that consent term reduced to less than 10 years, monitoring provisions, consideration of cultural values and reduce overflows to zero.
Neil Jordan	Oppose	No	The submitter opposes the application in its entirety and states that consent should not be granted.
Niamh Shaw	Oppose	Yes	Opposes application in entirety contrary to the values of the community striving to maintain quality of freshwater
Nicholas Andrew Loughnan	Oppose	Yes	Opposes discharge to various freshwater receiving environments, the term sought and the number of locations sought. Infrastructure and maintenance not adequate.
Nicola Jane Barnard	Oppose	Yes	Opposes application in its entirety. Concern over discharge to any freshwater receiving environments.
Nigel Cowburn	Oppose	Yes	Opposes application in its entirety. Stated that application should be declined.

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEARD	SUBMISSION
Niki Gladding	Oppose	Yes	Opposes application in its entirety. Discussed specifically receiving environment, discharge volume, frequency and duration, term, inadequate assessment of environmental effects, loss of enforcement tool, loss of stewardship and kaitiaki rights and potential avoidance of future planning framework.
Nina Klemm	Oppose	No	Oppose application in its entirety. Applicant has not assessed alternatives adequately. Potential economic impacts as could threaten tourism. Relief sought is that the application is declined in its entirety and the applicant reconsiders options.
NZ Deerstalkers Association (Upper Clutha Branch) Inc	Oppose	No	Oppose discharge of untreated wastewater to freshwater environments. Relief sought is that application is refused until wastewater infrastructure upgraded, modified or relocated.
One New Zealand (Monique Kelly)	Oppose	Yes	Oppose discharge due to ecological effects and human health risks and potential cumulative effects. Oppose term and suggest 10 years is more appropriate to allow for upgrading. Inadequate assessment of environmental effects. Not consistent with the Lake Wanaka Preservation Act 1973. Likely breach of Water Conservation (Kawarau) Order 1997 and not be consistent with the National Policy Statement for Freshwater Management. Submitter proposed conditions of consent.
Otago Fish and Game Council (Nigel Paragreen)	Oppose	Yes	Oppose the application in its entirety. Receiving waters are valuable to the Council and there is concern for environmental harm. Concern with cumulative effects. Application not consisstent with rekevant policy documents. Relief sought that application is rejected in current form.
Patricia Muir	Oppose	Yes	pposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Application does not protect cultural values. If granted consent should contain requirements for infrastructure upgrades and be granted for a term not exceeding 10 years. Stringinent monitoring and review provisions must be included. Concerned that adequate monitoring and enforcement will not be adhered to.
Patsy and Barry Johnston	Oppose	Yes	Oppose all aspects of application. Relief sought is that the discharge permit is declined.

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEARD	SUBMISSION
Paul and Robyn Hellebrekers	Oppose	No	Opposed all aspects of the application due to the adverse effects on water quality, in particular nutrient loading on the Lakes and the associated human health risk and impact on socio-economic values. Relief sought is that the discharge permit is declined.
Peter Hamilton	Oppose	No	Opposes discharge to various freshwater receiving environments. Sets precedent. Relief sought is that the application is declined and upgrades be undertaken as soon as possible.
Peter Thomson	Oppose	No	Opposes application.
Phillipa Byers	Oppose	No	Opposes discharge to various freshwater receiving environments. Concern for human health effects. Relief sought is the application declined.
Pierre Marasti	Oppose	No	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Relief sought is that the dishcarge permit is declined.
Prue and Annabel Wilson	Oppose	No	Objects to any untreated wastewater going into waterways and lakes at any time
Rachael Bentley	Oppose	Yes	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Application does not protect cultural values. If granted consent should contain requirements for infrastructure upgrades and be granted for a term not exceeding 10 years. Stringinent monitoring and review provisions must be included. Concerned that adequate monitoring and enforcement will not be adhered to.

SUBMITTERS NAME	SUPPORT/	WISH TO BE HEARD	SUBMISSION
Raewyn Calhaem	Oppose	No	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. If granted consent should contain requirements for infrastructure upgrades and be granted for a short term. Stringinent monitoring and review provisions must be included. Concerned that adequate monitoring and enforcement will not be adhered to.
Rainsford John Grubb	Oppose	Yes	Opposed all aspects of the application. It was suggested that further consideration should be given to prevent the discharges from occuring by installing a number of holding tanks. The submitter also requested the further data from past overflows is provied to better understand the discharges. Relief sought is that the applicant further considers alternatives to prevent the discharge such as the holding tanks. If this is deemed impractical, it is requested that the discharges are subject to conditions requiring effects to be mitigated.
Ralph Hume	Oppose	No	Opposed all aspects of the application. Particualr concern to ecological and social consequences. Requests application be declined and applicant reassess options.
Reid Mossman	Oppose	No	Opposes the application in its entirety.
Richard Alan Dickson Flett and William David Smelley	Oppose	Yes	Opposes the application in its entirety. Relief sought is that resource consent is not granted.
Richard and Ingrid Thomas	Oppose	Yes	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Application does not protect cultural values. If granted consent should contain requirements for infrastructure upgrades and be granted for a short term. Stringinent monitoring and review provisions must be included. Concerned that adequate monitoring and enforcement will not be adhered to.
Richelle Courtney	Oppose	Yes	Opposed all aspects of the application due to the adverse effects on water quality and human health. Relief sought is that the discharge permit is declined.
Riki Young	Oppose	No	Opposes application in its entirety. Relief sought is that the discharge permit is declined.
Robert and Elizabeth Knox	Oppose	Yes	Opposes discharge of untreated wastewater to freshwater and the term of consent. Applicant should be required to progressively upgrade.
Robert Douglas Galvin	Oppose	Not indicated	QLDC infrastructure unfit for purpose objects to term and impact on recreational activities
Robert John Wilson	Oppose	Yes	Objects and opposes the QLDC discharge into water bodies in area

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEARD	SUBMISSION
Robin Henry Maguire Dicey	Oppose	Yes	Opposes due to impact Maguire envorinment and
and Margaret Lucy Dicey			health cMaguireserns - cMaguirecerned about 35 year term
Robyn and John Gerard Cooney	Oppose	Yes	Opposes due to impact of wastewater flows on the Clutha River
Robyn Williams	Oppose	No	Opposed to term of consent should be no more than 7 yearsand should not be extended
Rod Walker	Oppose	No	Opposes the discharge of untreated wastewater into waterways and lakes.
Roderick Baxter	Oppose	No	Opposes the discharge of untreated waste into any freshwater enviornment
Rodney John Pemberton	Oppose	No	Opposes 35 year term would reluctantly be happy with 10 year term concerned with the impact on the environment and tourism
Rosemary Hamilton	Oppose	Yes	Opposes impact on environment and concerned about health risks.
Ross Cottier	Oppose	No	Opposed as againste ORC Fresh Water Stratergy and Annual Plan and concerned about the impact on the environment
Rupert and Rebecca Gardiner	Oppose	Yes	Opposes as the discharge does not meet the requirements of the National Policy Statement for Freshwater Management
Russell Lloyd Williams	Oppose	No	Concerns about the impact of the discharge on the environment
Ruth Alice Brown	Oppose	No	Opposes due to impact on the envorinment and
Sarah Millwater	Oppose	Yes	Opposes due to adverse effects on human health the discharge will also come into contact plant life and animals
Shaping Our Future Inc	Oppose	Yes	Opposed application does not provide sufficient upgrads ofr community education, likely to be in breach of the Water Conservation (Kawarau) Order 1997 inconsistant with NPSFM
Sharon Poulson	Oppose	No	Opposes all aspects of the application concerned about the impact on the environment
Shaye Darlianna Kaye Rakich Tronel	Oppose	No	Will be disgusting - the tourist market will be upset - ruining New Zealands green look
Sheena Ashford-Taid	Oppose	Not indicated	Opposes concenred about the impact on the environment - feels 35 years is too long for term and suggests a 5 year maximum term
Sheryl Kaye Alty	Oppose	No	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater Management 2014. Various objectives and policies relating to water quality are referenced. Relief sought is that the dishcarge permit is declined and that alternatives are considered further.

SUBMITTERS NAME	SUPPORT/ NEURAL/OPPOSE	WISH TO BE HEARD	SUBMISSION
Shirley Walthew	Oppose	No	Oppooses the discharge of waste water to water
Simon Wilkinson	Oppose	Yes	Opposed all aspects of the application on the basis that the application is inconistent with the provisons of the National Policy Statement for Freshwater
Simon Williams	Oppose	No	Opposed to all parts of the application - the discharge sets an unacceptable precident
Siobhan Waterhouse	Oppose	No	Opposed all aspects of the application stating that discharges of wastewater to freshwater environments must be avoided in any circumstances.
