Attended the initial Conference Committee meeting at Sami University College, Kautokeino, June 2014.

2014 – Conference Committee member: International symposium for Indigenous peoples and mining – University of Otago, September 2014. Funded through the 2013 Te Poutama Maori Collaborative Research Grant. Other Committee Members - Dr. Katharina Rucksthal and Associate Professor Michelle Thompson-Fawcett.

2012/2013 University of Otago Collaboration: Research Collaboration, Maorí and Mining. The team developed a tool kit (electronic) for Iwi/Maori to provide information and case studies about Indigenous peoples and Mining - to improve Maori engagement and relationships with Mining in New Zealand. Role: providing the case study material for International Indigenous groups experiences in developing governance and management processes with mining companies; co-editor of pamphlet. Other collaborators: Janet Stephenson (CSAFE), Jacinta Ruru (Law), Katharina Rucksthal (Research Office),
Diane Ruwhiu (Business School), Michelle Thompson-Fawcett (Geography), Andrew Gorman (Geology). Output: Book available on-line and hardcopy.

International collaboration: Working with Professor Suzani Cassiani, Departamento de Metodologicade. Programme de Pos-Graduacao em Educacao, Universidade Federal de Santos Caterina, Florianopolis, Brasil. Research Programme – Indigenization of the curriculum. Based on past research between the Universidade Federal de Santos Caterina, Florianopolis and Timor. To raise local issues that foster the development of pedagogical interventions and the production of teaching materials aimed at dialogue and emancipation – giving local knowledge a voice in science education and curriculum. Involves academic and PhD exchanges between Universities with myself and students travelling to participate in Brasil in 2020. Awaiting funding currently frozen by new Brazilian political regime.

International collaboration (2011-2012): Hosted two Indigenous scholars from allaskuvala/Sami University College, Gouvdageaidnu (Kautokeino), Norway. Professor Nils Helander and Associate Professor Kaisa Helander worked collaboratively with me and the School of Iwi Development, Te Whare Wananga o Awanuiarangi, across disciplines of linguistics and anthropology (July 2011-July 2012). Their research projects have a common element of challenge and struggle for indigenous peoples in Norway and Aotearoa/New Zealand. Outputs: Associate Professor Kaisa Helander and have an ongoing research relationship around landscape and identity – in particular the politics of place names. I assisted Professor Nils Helander in establishing relationships with the Iwi Development faculty, Te Whare Wananga o Awanuiarangi to investigate how developing pre-school literacy skills in the Sami language could be paralleled here in the Māori language.

2011 August 8-16, Invited to the University of New Mexico, Native American Studies Department to present two seminars to graduate students and staff. Outputs: the first seminar outlined the background to, and current positioning of, the three Wananga within New Zealand’s tertiary education sector; the second seminar discussed the application of indigenous methodologies within research and used the Pae Tawhiti Maori Economic Development Research program as the case study.

International collaboration (2010): Guest Lecturer to graduate students through the Indigenous post-graduate international collaborative Video Conference education link. This initiative is facilitated by University of Hawaii with participation from University of Arizona, University of Alaska, and Te Whare Wānanga o Awanuiārangi.

International collaboration (2003/2004): The research collaboration with three scholars from the University of Helsinki, Finland was in the field of environmental literacy: the way to grasp and interpret the environment. The team worked independently within their respective research areas and then came together to jointly present research findings at three international conferences. The research was significant in the way that the team analyzed a variety of local conceptions of the environment to illustrate their significance for people to cope with transitions in an increasingly global environment. Comparative research was drawn from Aotearoa/New Zealand, the Kordorfan Province in the Sudan, Northern Thailand, and Finland. The University of Helsinki researchers were Minna Hares (Local ecological forest use-Thailand), Anu Eskoheimo (Being literate in forest: Gender aspects on Sudanese forest Management), Professor Timo Myllýntus University of Helsinki (coordinator). Refer to 10g for ‘Outputs’.

6. Research Activities

(a) Research Expertise
My research involves investigating a number of interlinking themes relevant to Indigenous/Māori identity and development: landscape and identity that substantiates Indigenous/Māori claims and knowledge in temporal and spatial contexts; social impact of climate change for Indigenous peoples.

My research challenges current thinking in that it comes from an endogenous development perspective where emphasis is given to revitalizing and strengthening the Indigenous knowledge base, by taking the Indigenous perspective as a starting and end point for sustainable development. This approach relies on embedding culturally specific world-views and ways of learning as the theoretical frameworks, but also recognizes that sustainable development relies on strategic partnerships between Indigenous knowledge frameworks and the science and technology communities.

Internationally recognized Journals and Publishers who promote work in the Humanities have published my research as peer reviewed Books, refereed journal articles, and Book Chapters.

(b) Experience in Applied R & D, contract research, consultancies, patents
2019 (4 April to 3 May) University of Otago research leave: Visiting scholar to Sami University College, Kautokeino, Norway. Presenting research to students and staff (*Placenames as environmental indicators in the context of climate change*); Invited key note speaker Sami Placenames symposium – (Presentation – “Name games.” The politics of placenaming in Aotearoa/New Zealand). Outputs: BioHeritage research and report; Indigenous knowledge and climate change research in collaboration with Associate Professor Kaisa Helander and scholars at the Sami University College, Kautokeino.

November 2015-June 2016, University of Otago Research and Study Leave (Visiting Scholar for collaborative research with Associate Professor Kaisa Helander, Sami University College, Kautokeino, Norway); Outputs: Journal article pending; placenames and climate change data to be included into BioHeritage Challenge research project (see below); Research-focused University paper for second semester 2016 (MAOR210 Special Topic – “Battlescapes”. Placenames and identity in Aotearoa New Zealand).

2015-2019 Appointed Primary Investigator for the NSC Building Better Homes, Towns and Cities Challenge: *Ecology of community: Maori understandings and values in relation to spatial data*. Al Dr David Goodwin, School of Survey, University of Otago; James Berghan, PhD candidate. Potential for innovation: Toolkit for incorporating Maori land-use preferences into the Cadastral system; and catering for Maori land-use preferences for regional, urban and semi-urban planning.

2015-2020 Appointed as Primary Investigator the NSC BioHeritage Challenge sub-theme three project: Vision Matauranga across tipping points. Matauranga Maori as a key component of knowledge production in identifying and finding solutions to ecosystem challenges in freshwater management. (Primary Investigator: Dr Lynette Carter - start date January 2016). This a three year programme investigates the Matauranga Maori perspectives on tipping points for sustainable management, and Matauranga-based processes to manage intergenerational sustainability and development in freshwater systems working with Kati Huirapa Runaka ki Puketeraki and their aspirations and sustainability objectives around the Inaka fisheries in the Waikouaiti river. The VM project will integrate into the overall BioHeritage research by providing a Matauranga Maori base for co-production of knowledge and solutions for future management and governance partnerships between Iwi and Western Organisations. Potential for Innovation: Maori and Indigenous approaches and knowledge frameworks utilised in finding solutions to co-governance and management for intergenerational bio-heritage development and sustainability.

2014/15 Joint editor/contributor for Te Tumu publication (Auckland University Press): Text book for MAOR102 course – *Te Koparapara*. Co-editor with Dr Lachy Patterson for Part Two of the book; sole author for Chapter 19, Part Three. Full editorial team: Professor Michael Reilly, Assoc. Prof. Poia Rewi, Dr Lynette Carter, Dr Lachy Patterson, Dr Matiu Ratima, Suzanne Duncan.

2014 National Science Challenge University of Otago team member: *New Zealand’s Biological Heritage*. Interim Research Team member for Bioheritage Research Programme Three, *He putaiao kaha ora tonu: Sustaining natural capital through resilient ecosystems*.
2013 NSC: Invitation from the Ministry of Business, Innovation and Employment to attend the MBIE National Science Challenge workshop (Biological Heritage Challenge), Thursday 20 June, Wellington. (Attending with Dr. Phillip Seddon, Zoology, University of Otago).

2013 Associate Investigator for Otago Climate Change Network University of Otago Research Grant (UORG): The social, political and economic risks and opportunities of climate change (application granted). Principal Investigator Professor Colin Campbell-Hunt; Associate Investigators – Professor James Higham; Dr. Ben Wooliscroft; Dr. Lynette Carter; Dr. Daniel Kingston; Dr. Sara Walton; Dr. Ivan Diaz-Rainey; Dr. Chris Rosen. Output: Refereed Journal Article (joint authored) – 2015 D. Hopkins, C. Campbell-Hunt, L. Carter, J.S Higham, C. Rosin ‘Climate Change and Aotearoa New Zealand’, WIREs Clim Change 2015.doi:10.1002/wcc.355.

2013 Member of the Otago Climate Change Network (OCCNet): A group of researchers from a wide range of departments in Otago University who have come together to attempt to address the complex and inter-connected problems posed by climate change (Network Head, Professor Colin Campbell-Hunt, HoD, Accountancy and Finance). Role: providing expertise and research on the social impact of climate change, particularly challenges to governance and identity in the context of climate change-induced diaspora. Output: Developed multi-disciplinary, team taught paper, ENVI 312 (to be taught from second semester 2016)

2010 Project and planning team leader - Symposium - He Pourewa Arotahi. The elevated platform for resolution, Te Papa Tongarewa, Wellington 29-30 November 2010. Role: as Interim Director for the Institute for Post-Treaty Settlement Futures, Te Whare Wananga o Awanuiarangi, I led the project and planning team that facilitated a national research Symposium to develop ongoing research, collaborative projects, and discussion workshops between Iwi and other stakeholders (Government and NROs) in Post-Treaty of Waitangi Iwi Settlement environment: Economy and entrepreneurship, Environment, and Cultural Heritage. Opening address, Prime Minister, John Key.

2010-2011 Senior Academic Writer, ‘Critical Success Factors that empower Māori Economic Development’: Te Pae Tawhiti Māori Economic Development Research Program funded by Nga Pae o Te Maramatanga, Centre of Research Excellence, University of Auckland ($1.5million over three years). This is research collaboration between Te Runanga o Ngati Awa and Te Whare Wananga o Awanuiarangi. The three year program will engage in three specific projects: establishment of an aspirational framework for Māori economic development; Design innovative models and scenarios for MED; creation of a futures framework to transform MED. The program uses an endogenous methodological approach that fully engages the 6 Iwi participants in the research and outputs. Refer to 10 (a) for outputs.

2009 Organisation and facilitation (100%) of an exhibition and seminar for research projects that concern ‘Matariki’ at Te Whare Wananga o Awanuiarangi (24 June 2009). Outputs: collaborative public seminar and workshop on indigenous foods with speakers and environmental researchers from Te Whare Wananga o Awanuiarangi.

2009 Organised and facilitated Staff research symposium for PBRF eligible staff, Te Whare Wananga o Awanuiarangi, Rotorua, 15-17 November 2009). Role: Led organising committee; facilitated workshops in aspects of research including ethics, research techniques and qualitative/quantitative approaches to research methods and methodologies; assisted staff members to present current research in formal "conference" situations.

2006, Contributor and researcher for The Marginalization Project, funded by Nga Pae o Te Maramatanga, Centre of Research Excellence, University of Auckland ($100,000 over two years). This project critically examined the processes and conditions by which some individuals and groups are excluded not only from mainstream society but also from Māori society. The project contributors sought to elude, challenge and transform practices, policies and perceptions that inhibit and indeed prevent these groups and individuals from full and meaningful participation in, and contributions to, all aspects of social and economic life. The research was also concerned with the development of constructive relationships between researchers and marginalized groups that would allow for mutual growth and transformation. Research outputs refer to 10 (c).
2006  Mentoring and research advisor to visiting PhD student from University of Tokyo to the Department of Maori Studies, University of Auckland (research – social structures of urban-based Maori whanau).

2005  Mentoring and research advisor to visiting International PhD student from Charles University, Prague to Department of Maori Studies, University of Auckland (Maori language and urban-based whanau).

2004, Researcher/sole investigator, Integration by Degrees, funded through New Staff Research Grant, Faculty of Arts, University of Auckland. A two-year project that investigated the long-term impact on identity through the use of legislation to determine and categorize New Zealand Māori by blood quantum. Research Output refer to 10 (c).

1999-2003 Researcher. University of Auckland Māori language newspaper project funded by grants from the Marsden Fund, Royal Society of New Zealand, the Trustees of the National Library of New Zealand, and supported by the Alexander Turnbull Library, Wellington. The Department of Maori Studies, University of Auckland three-year project was to write English abstracts for the contents of the 43 nineteenth-century Māori language newspapers (1842-1930). Role: I was involved in this project through my post-graduate work in translation and transcription of nineteenth-century Māori language manuscripts and my specific role was to translate and write English abstracts for three major papers: Te Wananga (1874-1878), Te Waka Niu Tirani (1874-1878), Te Paki o Matariki (fragments of surviving copies spanning three monarch eras of the Kingitanga). Refer to 10 (b) and (g) for outputs.

2000-2003, Researcher as part of a collaboration between Auckland University Marsden ‘Maori newspaper team’ and the Computer Science Department, Waikato University. The Computer Science Department was digitizing the nineteenth-century Māori language newspapers and utilised the English abstracts from the Auckland University Marsden Project for the website.

2003, Joint recipient of the Rockefeller Foundation Scholarship for 10-day workshop at the Bellagio Study and Conference Centre, Bellagio, Lake Como, Italy (other recipients were Dr Jane McRae, Professor Mark Appleby, Tane Mokena, Hazel Petrie, Te Taka Keegan and Ariana Keegan) Output: Resource for the digitization of indigenous language print material (in-house resource at Waikato University).

(b) Development of significant innovations and/or publications in curriculum development, student assessment, teaching procedures and teaching materials

2014/2015 Development of full-time 300-level paper (INDV301). Received a CALT grant to develop further into a full-time paper scheduled for Semester one 2016. The CALT grant was used to develop a practicum component for working within community development projects. The paper will contribute to the 300-level papers for the Major in Indigenous Development BA, and forms part of Te Tumu’s strategy to further develop the Indigenous Studies and Pacific Studies programmes within the School.

19
2014. Re focused the 100-level and 200-level core papers for Te Tumu’s Major in Indigenous Development/He Kura Matanui. In order to meet Te Tumu’s strategic objective to place more emphasis on the Indigenous and Pacific studies programmes within the School, the Pacific 100-level and 200-level papers were reassigned as core papers for the Major in Indigenous Studies BA. This is part of an overall objective to increase numbers in Pacific Studies and to increase available options for study pathways through Te Tumu.

2013/2014. Developed lectures for inclusion into the proposed ENVI 212 Climate Change. I will be contributing two lectures to this paper, which will be based on my current research in the social impact of climate change in New Zealand and the Pacific (second semester 2016 start date).

2009, Developed the Indigenous Major for the Bachelor of Humanities, Te Whare Wānanga o Awanuiārangi. Successfully accredited in 2010.

2008, Curriculum development collaboration and innovation between Te Whare Aronui, Ngāti Tuwharetoa (PTE) and School, Māori Development and Humanities, Waiariki Institute of Technology. In my role as Director of Māori Development and Humanities, Waiariki Institute of Technology, I worked with Te Whare Aronui o Tuwharetoa to develop courses that utilised teachers, the Community, marae, and Ngāti Tuwharetoa elders in the total learning and teaching programme at Turangi, Lake Taupō. The collaboration was initiated by Ngāti Tuwharetoa and was underpinned by Ngāti Tuwharetoa tikanga, knowledge frameworks, beliefs and values.

2006-2009 – Curriculum development and implementation (Certificate, Diploma and Degree levels); Project Managed the re-accreditation of Degree (Bachelor of Social Sciences – Social Work); and level 7 Diploma (Early Childhood Education), Waiariki Institute of Technology. (Involved working with the NZQA Accreditation Panels, New Zealand Teachers’ Council, Social Work Registration Board).

(b) Book Chapters

Carter, L. (2015). “Iwi are where the people are”: Rethinking ahi ka and ahi matoa in contemporary Maori society, in Kepa, M., McPherson, M., and Manu’atu, L. (eds) “Home: Here to Stay!”. Wellington: Huia Publishers, 23-32. (Reviewer comments: “Carter has a good record of publications on this topic and is an expert in the area”; ‘It is relevant to the homelands, modern society and Maori diaspora”; a valuable discussion in challenging traditional notions and how they are being redefined in modern Maori society’)

Carter, L. (2006). A notice to all the people to whom Te Wananga is sent [Transcription and Translation of He Parui ki nga tangata katoa, e tukua atu te Te Wananga ki a ratou] in, Curnow, J., Hopa, N.,

Carter, L. (2005). Naming to Own. Place names as indicators of human interaction with the landscape, in AlterNative, An International Journal of Indigenous Scholarship, the Journal of Nga Pae o Te Maramatanga, University of Auckland, 1 (1), pp.7-25 (Lead article, sole author).

Refereed Report

2011 Carter, L., Kamau, R., Barrett, M. (2011), pp. 36. Published commissioned Report for Ngā Pae o Te Maramatanga, Pae Tāwhiti Māori Economic Development Research Program (Quality Assured). My contribution to this report was to generate information about the impact on social development through economic development (70% of overall report). The contribution to the overall Research Program was to emphasise the importance of, and locate Māori/Indigenous knowledge values, ethics and knowledge frameworks within the overall understanding and practice of economic development.

Carter, L.; Savage, C. (2013). Commissioned report, Maori Strategic Framework Review for Te Kura Matatini – Otago Polytechnic Undertaken 3-4 September 2013. The Report detailed the findings of the 2-day Maori Strategic Framework review at Otago Polytechnic (Confidential), and was a follow-up review from the cultural Audit undertaken in 2010. Comprised 23 pages including Executive Summary; 70% authorship/contribution as Review Chair.

Carter, L. (2010). Cultural Audit of Otago Polytechnic. The purpose of the audit was to establish progress in two key areas: to what extent have the priorities within the Māori Strategic Framework been implemented across the Polytechnic; to what extent has the partnership relationship with the four Papatipu Runaka been established on a firm footing. Output: Confidential Report (50 pages including Executive Summary – sole author).

Carter, L., Petrie, H. (2001), (50 pages). A Confidential Report for the Ngāti Whātua o Orakei Tribal Trust Board (Waitangi Tribunal evidence). Comparative literature research and review of nineteenth-century newspapers and the Orakei Land Court Minute Books. My contribution was 50% of the overall project and involved reviewing the Orakei Land Court Minute books and newspapers from 1842-1848. This provided strong evidence for Ngāti Whātua to successfully achieve a settlement with the Crown through the Waitangi Tribunal.

Carter, L. Petrie, H. (2001), (pp:132 plus 8 Town allotment plans). Confidential Report for the Ngāti Whātua o Orakei Tribal Trust Board (Waitangi Tribunal evidence), Interpretation of Crown on-sales of Ngāti Whātua or Orakei Lands from the First Land Transfer Deed, 1840 and the Second Land Transfer Deed 1841. My contribution was 50% of the overall project. Dr Petrie and I examined the land title deeds for all Crown on-sales of Ngāti Whātua lands (greater Auckland area) between 1842 and into the early 1850s, and mapped the results using the early survey maps. This provided strong evidence for Ngāti Whātua to successfully achieve a settlement with the Crown through the Waitangi Tribunal.
