Amount of water taken out of the Royal Burn north branch

My/Our submission is (include: whether you support or oppose the application or specific parts of it, whether you are neutral regarding the application or specific parts of it and the reasons for your views).

We oppose to the requested volume of water to be taken out of the Royal Burn for the purpose of irrigating a golf course and lawn growing commercial business. The Royal Burn crosses our property from east to north and have witnessed for the past few years periods when it completely dries out due to the amount of water taken by the applicants. We have alpacas and sheep that relies on the stream to drink water. My 2 sons have seen countless brown trouts swimming and when applicants dry out the Royal burn, those trouts die in our stream. The water intake for domestic water scheme is on my property and is significantly impacted by the applicants take of water from the royal burn.

I/We seek the following decision from the consent authority (*give precise details, including the general nature of any conditions sought*)

To Decline the applicant the right to take more than the 25,000L/day allocation from the ~~Royal Burn. The applicants have made a huge mess at the foothill of the Crown range by excavating water races, ponds etc that has permanently scared the landscape of this area next to the Braken's gully walking track~~
