Draft Regional Public Transport Plan 2025-2035 Feedback form

Unique ID

RPTP-0533

Contact details

Name:

Arjan Abeynaike

Do you wish to speak to your submission at a public hearing?

No

Topic 1: Are we focusing on the right things in the plan?

Do you agree that these focus areas capture Otago's public transport priorities?

Yes

Topic 2: Should we support community transport services in smaller towns and rural areas?

Our proposal: we are considering the establishment of a subsidised community transport programme providing support for transport services in Otago's smaller towns and rural areas.
What do you think about this proposal?

Do you agree with ORC having a role in supporting community transport services?

Yes

Topic 3: Should we increase our passenger fares?

Our proposal: we are considering increasing the base fare for adult Bee Card passengers from \$2 to \$2.50. This would effectively increase bus fares for all passengers using Bee Cards by 25%.
What do you think about this proposal?

Should Council increase the adult Bee Card fare?

No

Topic 4: Should we charge more for longer trips?

Our proposal: we are considering introducing a zone fare system to our bus networks in Dunedin and Queenstown. Under this system, passengers travelling further distances across multiple zones will pay a higher fare than those travelling short distances within one zone.

What do you think about this proposal?

Should Council charge more for longer trips?

No

Topic 5: Should we keep our free fares for children (5-12 years)?

Our proposal:

- A. Retain free fares (100% discount) for children (5-12 years), **AND**
- B. Standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks. For example, if the adult fare is \$2, youth pay \$1.20, or if the adult fare is \$2.50, youth pay \$1.50.

What do you think about this proposal?

Should Council retain free fares (100% discount) for children (5-12 years)?

Yes

Should Council standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks?

Yes

Any other comments?

Let us know if you have any other comments or ideas on the topics discussed in the Draft Regional Public Transport Plan.

Electric buses are quieter and smoother, and better for the climate. Many of the diesels release visible smoke when they accelerate from the bus stop, which passengers at the stop will inhale. I fully support the electric rollout.

I would appreciate more frequent service in the evenings. After 5.42pm the 77 bus to Mosgiel is very infrequent.

The bee card readers do not work well. Sometimes it takes a few swipes to tag on. Similar systems I have used overseas immediately recognise the card. And I don't see the point of tagging off since we all pay a

flat fare. It just shows down the process of exiting the bus. I hope the new card readers will work better.
