Draft Regional Public Transport Plan 2025-2035 Feedback form

Unique ID

RPTP-0078

Contact details

Name:

Diane Cooney

Do you wish to speak to your submission at a public hearing?

No

Topic 1: Are we focusing on the right things in the plan?

Do you agree that these focus areas capture Otago's public transport priorities?

Yes

Topic 2: Should we support community transport services in smaller towns and rural areas?

Our proposal: we are considering the establishment of a subsidised community transport programme providing support for transport services in Otago's smaller towns and rural areas.
What do you think about this proposal?

Do you agree with ORC having a role in supporting community transport services?

Yes

Are there other initiatives or programmes that you think Council should be considering?

No

Topic 3: Should we increase our passenger fares?

Our proposal: we are considering increasing the base fare for adult Bee Card passengers from \$2 to

\$2.50. This would effectively increase bus fares for all passengers using Bee Cards by 25%.

What do you think about this proposal?

Should Council increase the adult Bee Card fare?

Yes

Tell us more:

I guess you have no choice but to increase the price of fares. The subsidized youth rate is a great idea. It would keep my kids catching the bus home. If it was the adult rate I would collect them as too expensive for children to be charged 2.50.

Topic 4: Should we charge more for longer trips?

Our proposal: we are considering introducing a zone fare system to our bus networks in Dunedin and Queenstown. Under this system, passengers travelling further distances across multiple zones will pay a higher fare than those travelling short distances within one zone.

What do you think about this proposal?

Should Council charge more for longer trips?

Yes

Tell us more:

Yes. This is a no brainer. Very common in other cities.

Topic 5: Should we keep our free fares for children (5-12 years)?

Our proposal:

- A. Retain free fares (100% discount) for children (5-12 years), **AND**
- B. Standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks. For example, if the adult fare is \$2, youth pay \$1.20, or if the adult fare is \$2.50, youth pay \$1.50.

What do you think about this proposal?

Should Council retain free fares (100% discount) for children (5-12 years)?

Yes

Should Council standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks?

Yes

Tell us more:

This is detrimental to keeping school children using the bus service. The adult rate would mean it would be far cheaper to collect them in my car.

Any other comments?

Let us know if you have any other comments or ideas on the topics discussed in the Draft Regional Public Transport Plan.

There seems to be very few options for Waverlry/Shiel Hill children to get to Kings or Queens easily using the bus service.

Great document. Easy to read. Well done.

Transit app is good. Overall the reliability of bus service has improved alot over the last 3 years.

The bus hub needs a safety over haul. I'm not sure how you to do that. Security guards need to be more professional. They seem to mingle and chat with school kids in the past. My kids catch the bus at the Hospital stops mostly to avoid the bus hub.

The 2 of them catch the bus daily.
