# Draft Regional Public Transport Plan 2025-2035 Feedback form

Unique ID

RPTP-0118

## Contact details

Name:

Martin Junek

Do you wish to speak to your submission at a public hearing?

No

## Topic 1: Are we focusing on the right things in the plan?

Do you agree that these focus areas capture Otago's public transport priorities?

Yes

## Topic 2: Should we support community transport services in smaller towns and rural areas?

**Our proposal:** we are considering the establishment of a subsidised community transport programme providing support for transport services in Otago's smaller towns and rural areas.

**What do you think about this proposal?**

Do you agree with ORC having a role in supporting community transport services?

Yes

## Topic 3: Should we increase our passenger fares?

**Our proposal:** we are considering increasing the base fare for adult Bee Card passengers from \$2 to \$2.50. This would effectively increase bus fares for all passengers using Bee Cards by 25%.

**What do you think about this proposal?**

**Should Council increase the adult Bee Card fare?**

No

**Tell us more:**

It is cheaper to drive to town - that shouldn't be the case. Public transport should always be the cheapest option, otherwise you will never get people out of cars and cars out of city centers.

I think the fee should be reduced, ideally public transport should be free. I'm happy to pay more in rates to subsidise public transport. If somebody chooses to drive - it's their choice to not use the service that they already pre-paid (through their rates).

Public transportation should always be the number one option to travel to the city center, accessible to everybody.

## Topic 4: Should we charge more for longer trips?

**Our proposal:** we are considering introducing a zone fare system to our bus networks in Dunedin and Queenstown. Under this system, passengers travelling further distances across multiple zones will pay a higher fare than those travelling short distances within one zone.

**What do you think about this proposal?**

**Should Council charge more for longer trips?**

Yes

## Topic 5: Should we keep our free fares for children (5-12 years)?

**Our proposal:**

- A. Retain free fares (100% discount) for children (5-12 years), **AND**
- B. Standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks. For example, if the adult fare is \$2, youth pay \$1.20, or if the adult fare is \$2.50, youth pay \$1.50.

**What do you think about this proposal?**

**Should Council retain free fares (100% discount) for children (5-12 years)?**

Yes

**Tell us more:**

I think public transportation should be free for everybody, not just children.

## Any other comments?

**Let us know if you have any other comments or ideas on the topics discussed in the Draft Regional Public Transport Plan.**

I fully support electrifying the bus fleet. Current diesel busses are stinky and loud. Air quality around the bus hub in Dunedin center is pretty toxic from these diesel fumes. I can't wait to have all busses electric!
