Draft Regional Public Transport Plan 2025-2035 Feedback form

Unique ID

RPTP-0082

Contact details

Name:

A Walton

Do you wish to speak to your submission at a public hearing?

No

Topic 1: Are we focusing on the right things in the plan?

Do you agree that these focus areas capture Otago's public transport priorities?

Yes

Tell us more:

Some communities do not have a visible public transport network ie Oamaru, yet we are told for our school children they do not qualify for school buses as there is a public transport network. There is not a public transport system that anyone can access, or if it is, it is not known about. Interesting the Oamaru shows on the diagram as having a form of Public transport, but it is not known what this refers to. The location of subsidized public transport is not evenly distributed through the region, so the benefit is not fairly distributed

Topic 2: Should we support community transport services in smaller towns and rural areas?

Our proposal: we are considering the establishment of a subsidised community transport programme providing support for transport services in Otago's smaller towns and rural areas.
What do you think about this proposal?

Do you agree with ORC having a role in supporting community transport services?

Yes

Are there other initiatives or programmes that you think Council should be considering?

No

Topic 3: Should we increase our passenger fares?

Our proposal: we are considering increasing the base fare for adult Bee Card passengers from \$2 to \$2.50. This would effectively increase bus fares for all passengers using Bee Cards by 25%.

What do you think about this proposal?

Should Council increase the adult Bee Card fare?

Yes

Tell us more:

Users should cover more of cost, as the service is not available to all Otago residents, it is only fair that a reasonable cost recovery occurs

Topic 4: Should we charge more for longer trips?

Our proposal: we are considering introducing a zone fare system to our bus networks in Dunedin and Queenstown. Under this system, passengers travelling further distances across multiple zones will pay a higher fare than those travelling short distances within one zone.

What do you think about this proposal?

Should Council charge more for longer trips?

Yes

Topic 5: Should we keep our free fares for children (5-12 years)?

Our proposal:

- A. Retain free fares (100% discount) for children (5-12 years), **AND**
- B. Standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks. For example, if the adult fare is \$2, youth pay \$1.20, or if the adult fare is \$2.50, youth pay \$1.50.

What do you think about this proposal?

Should Council retain free fares (100% discount) for children (5-12 years)?

Yes

Should Council standardise our concession discount for youth (13-18 years) to 40% across both the Dunedin and Queenstown networks?

Yes

Any other comments?
